Approved—April 26th, 1984.

Filed—May 1st, 1984.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-56

Having received a request from the Minister of Government Services that an undertaking, namely:

The activity of converting the Bluewater Centre in Goderich to a facility for the detention of young offenders,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Minister of Government Services that if the undertaking is subject to the application of the Act, the following damage or interference with the persons and property indicated will occur:

- A. The Crown and the public will be interfered with in that there will be a delay in the provision of suitable detention facilities which are required by April 1, 1985 under the new federal *Young Offenders Act*.

Having weighed such damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The undertaking is a continuation of the institutional use of the existing site. All work will be restricted to interior alterations of the existing vacant buildings, with the exception of the external security fence. The

facilities are relatively isolated, on a large piece of government-owned property in a rural setting.

- B. The Crown is required by federal law to provide suitable facilities within a severely restrictive deadline and conversion of the existing facilities would represent a considerable savings to the Crown in time and funds.

This exemption is subject to the following terms and conditions:

1. The Ministry of Correctional Services shall convene a public meeting in the Town of Goderich, County of Huron, to receive public comments with respect to the undertaking so that the Minister of Correctional Services may consider any public comments before the undertaking is proceeded with.
2. Notice of the meeting, referred to in Condition 1, shall be given to the Clerks of the Town of Goderich and the County of Huron and published in the *Goderich Signal-Star* and *The London Free Press*. The notice shall include a description of the undertaking and state that the meeting is being held pursuant to an Exemption Order under the *Environmental Assessment Act* to obtain public comments.
3. Construction or physical alterations to structures to carry out the undertaking shall not commence until the public meeting, referred to in Condition 1, has been held.
4. Where carrying out the undertaking requires that some activity, for which an Environmental Assessment has been done and an approval to proceed has been issued, that activity is not exempt under this Order but shall be carried out in accordance with the Environmental Assessment and approval to proceed. Where carrying out the undertaking requires that some activity for which another Exemption Order has been granted, the activity shall be carried out in accordance with any conditions in the other Exemption Order as well as the conditions herein. 3. Where a bursary is the first bursary being provided to an applicant under section 2, the undertaking required by clause 2 (b) is an undertaking that, in consideration of his being provided with the bursary,

the date on which he is granted his degree in occupational therapy;

(b) if the applicant,

O. Reg. 289/84, s. 4.

5. The interest mentioned in sections 3 and 4 is interest calculated monthly on the first day of each month at a rate equivalent to one-twelfth of the Bank of Canada rate that prevails on the last day of the preceding month as set out in the Bank of Canada Weekly Financial Statistics and applied from the date that the applicant receives his bursary. Schedule 15

SCHEDULE OF BENEFITS

PREAMBLE

A. General

1. The rates listed in this Schedule of Benefits are the maximum payments which can be made by the Ontario Health Insurance Plan.

2. Insured medical services are limited to the services which are medically necessary, which are listed in this Schedule of Benefits and which are not specifically excluded by legislation or regulation (see Appendix A for a list of specific exclusions).

3. Additions, deletions or other modifications of the Schedule of Benefits require recommendation by the Ontario Health Insurance Plan. Such recommendations are made in consultation with the Ontario Medical Association.

4. This Schedule is a public document and frank discussion with patients regarding the listed rates is recommended.

5. Claims for services which are not listed in the Schedule or which are listed as N.A.B. (not a benefit) or which are excluded as benefits by legislation or regulation should not be submitted to the Plan. Such services may be charged directly to patients or others requesting them.

6. The principles governing proper professional charges are incorporated in the Regulations (Medicine) of the Health Disciplines Act.

7. Each physician who participates in the care of a patient is entitled to compensation commensurate with the services he renders.

8. Whenever possible, the physician should acquaint the patient or person financially responsible with his obligations to those concerned with his care. This is particularly important where supportive or concurrent care is rendered or when a consultation and/or procedure are being arranged.

9. Each physician participating in the care of a patient should render to the patient, or to the financially responsible party, an itemized statement of charges for professional services.

10. Each physician participating in the care of a patient should, on request, send a receipt to the patient for all payments made by him.

11. If fees are collected by an organized group, the name of the physician rendering the service should be clearly shown on the bill or claim card.

12. Claims may be submitted for services which a patient receives from the team of staff man, resident, intern and clerk in a teaching unit, provided that the conditions as set out hereunder apply.

On October 10, 1972, the Minister of Health confirmed that the joint recommendations of the College and the O.M.A. governing the charging of fees for services provided by interns and residents in clinical teaching units are acceptable to the Ministry of Health. In his letter the Minister made it very clear that he is looking to the College and the Medical Schools to ensure that the ethical rules governing these billing procedures are followed meticulously in all cases.

It has been carefully explained that the responsible staff man must be present in the clinical teaching unit at the time the services are rendered and must be identified to the patient at the earliest possible moment. No fees are to be charged for services given by the intern or resident prior to this identification taking place. The following rules are now in effect:—

When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the physician responsible shall be personally identified to the patient. His relationship to the team shall be defined by the clinical teaching unit Director and his role must be known to the patient and other members of the team. He shall assume full responsibility for the appropriateness and the quality of the services rendered.

Specific regulations must vary with the service and form of care being delivered:—

- (a) In order to claim for physical procedures being carried out by an intern or resident, the responsible staff man must be in the clinical teaching unit and immediately available to intervene.
- (b) In psychotherapy where the presence of the staff man would distort the psychotherapy milieu, it is appropriate for the staff man to claim for psychotherapy when a record of the interview is carefully reviewed with the resident and the procedure thus supervised. However, the time charged by the staff man may not exceed the total time spent by him in both such interview and in direct supervision.
- (c) In other departments or services, the staff man should only claim for visits on the days when actual supervision of that patient's care takes place through the presence of that staff man in the clinical teaching unit on that day. This, of course, involves a physical visit to the patient and/or a chart review with detailed discussion with the other member(s) of the health team.
- (d) In those situations where on a regular basis a staff member might supervise concurrently multiple procedures or services through the use of other members of the team, the total claims made by the staff man shall not exceed the amount that the staff man might make in the absence of the other members of the team.

Any claim rendered should be in the name of the responsible staff man.

13. Charges for missed appointments are not benefits of OHIP.

14. Independent consideration will be given under Code R991 to out-of-Province claims for surgical and other complex medical procedures that are generally accepted but are not available in Ontario and where the insured person departs from Ontario for the express purpose of having the service rendered. Where an Ontario physician has made the referral and prior approval from the Plan has been obtained, payment is to be made at the usual and customary fee that prevails in the area.

PREAMBLE

B. Terms and Definitions:

Call or Visit: is the service by a physician to or on behalf of a patient for assessment and/or treatment.

1. Consultations:

- (a) Consultation refers to the situation where a physician, in light of his professional knowledge of the patient, requests the opinion of another physician competent to give advice in this field, because of the complexity, obscurity or seriousness of the case or because another opinion is requested by the patient or an authorized person acting on his behalf. The consultant is obliged to perform a general or specific assessment, review the laboratory or other data and submit his findings, opinions and recommendations in writing to the referring physician.
- (b) If a consultant is requested by a physician on duty in the emergency department to see a patient in consultation, the former may charge a consultation fee for this service. If the consultant is requested to perform this same service by a resident or intern, the former may charge a general or specific assessment according to his specialty.
- (c) **Consultations required by hospital by-law and/or statute are not insured service except where contrary indications are noted in this Schedule.**
- (d) For laboratory and procedural charges connected with consultations, see listings of Diagnostic and Therapeutic Procedures and Laboratory Medicine.
- (e) A consultation is not to be claimed as such when:
 - (i) The patient presents himself to a consultant's office without prior knowledge of the primary physician. The sending of a report to the primary physician under these circumstances does not justify a consultation.
 - (ii) The primary physician is not asked for professional advice but is simply asked by the patient for the name of a specialist in a particular field and the patient seeks out the specialist himself.
- (f) A **repeat consultation** requires all of the criteria of a full consultation and implies interval care by the primary physician. The situation in which the consultant requests the patient to return for a later examination is not a repeat consultation.
- (g) A **limited consultation** may involve all the components of a full consultation but is less demanding, and in terms of time, normally requires substantially less of the physician's time than the full consultation.
- (h) A **diagnostic radiology consultation** applies when radiographs made elsewhere are referred to a radiologist for his written opinion or when a radiologist is required to make a special visit at Night (5:00 p.m. to 7:00 a.m.) or Saturdays, Sundays and Holidays to consult on the advisability of performing a diagnostic radiological procedure which eventually is not done. A consultation does not apply when the radiographs referred to above are used for comparison purposes with radiographs made in the consultant's facilities.
- (i) A **diagnostic pathology consultation** applies when tissue, slides, and/or specimens are referred to a second pathologist **not in the same institution** for a written opinion. It includes secretarial or other assistance but does not apply when the above are used for comparison with tissue, slides, materials or tests done in the consultant's facilities. When a diagnostic pathology consultation fee is claimed, L821 may not also be claimed.
- (j) A **pathology consultation or repeat consultation** applies when a pathologist is requested to examine a patient and provide a written opinion.
- (k) A **diagnostic nuclear medicine consultation** applies when nuclear medicine studies are referred to a nuclear medicine specialist for a written opinion, or when the nuclear medicine physician is required to make a special visit at Night (5:00 p.m. to 7:00 a.m.) or Saturdays, Sundays and Holidays to consult on the advisability of performing a nuclear medicine procedure which eventually is not done. A consultation does not apply when procedures done elsewhere are used for comparison purposes with nuclear medicine studies made in the consultant's facilities.
- (l) A **nuclear medicine consultation or repeat consultation** applies when a nuclear medicine specialist is requested to examine a patient and provide a written opinion, all of which takes a greater amount of time and effort than a nuclear medicine study would normally require. It may be done in conjunction with a nuclear medicine study but if so, the lesser professional fee (P_2) rather than the greater fee (P_1) should be claimed in addition to the technical fee (T).
- (m) Some nuclear medicine specialists have other specialist qualifications which allow them to claim another consultation (e.g. internal medicine). A nuclear medicine consultation or repeat consultation may be claimed in lieu of another consultation (e.g. internal medicine) but would not be combined with such a consultation by the same consultant.
- (n) A **prenatal consultation** by a paediatrician applies when a physician considers a foetus of greater than 20 weeks gestation to be at risk or in jeopardy by reason of continuation of pregnancy in the presence of maternal and/or foetal distress, and requests the opinion of a paediatrician competent to give advice in this field. The paediatrician shall perform a general or specific assessment, review laboratory and other data and submit his findings and recommendations in writing to the referring physician. Such a consultation does not preclude the paediatrician from a post-natal consultation on the infant.
- (o) A special surgical consultation may apply when a surgeon provides all the components of a regular consultation but is required to spend considerably more time than usual in consultation because of the very complex, obscure or serious nature of the problem. The surgeon should claim for special consultations on an I.C. basis.

PREAMBLE

Note: OHIP benefits for consultations normally are limited to one consultation per year, per patient, by any one physician. However, if the same patient is referred to the same consultant a second time within the year with a clearly defined unrelated diagnosis, one additional consultation may be claimed per year.

2. **General Assessment:** shall comprise a full history, an enquiry into, and an examination of all parts or systems (and may include a detailed examination of one or more parts or systems), an appropriate record, and advice to the patient.*

OHIP benefits for general assessments normally are limited to one per year per patient by any one physician. However, if the same patient presents again within the year to the same physician with a clearly defined new diagnosis, one additional general assessment may be claimed per year. In the case of a patient who proceeds normally to hospital, the admitting physician may claim one additional general assessment per year provided 90 days have elapsed since the last general assessment rendered (anywhere) to that patient by the admitting physician. If the patient doesn't qualify for a general assessment by the admitting physician, he may claim a general re-assessment.

3. **General Re-Assessment:** shall comprise the same services as a general assessment except that the history need not include all the detail already obtained in the original general assessment.*

OHIP benefits for general re-assessments, except for hospital admission re-assessments, are limited to two per year, per patient, by any one physician.

4. **Specific Assessment:** shall comprise a full history of the presenting complaint, enquiry concerning, and detailed examination of the affected part, region or system, as needed to make a diagnosis, and/or exclude disease and/or assess function, an appropriate record, and advice to the patient.* (This may vary among sections.)

Physicians qualified in two specialties (EENT for example) may only claim for one visit, e.g.: a consultation (if referred) or a specific assessment (if non-referred), if both systems are examined during the same visit. However, two consultations or two specific assessments, etc. may be claimed if both systems are examined, each on a separate visit.

OHIP benefits for specific assessments normally are limited to one per year, per patient, by any one physician. However, if the same patient presents again within the year to the same physician with a clearly defined new diagnosis, one additional specific assessment may be claimed per year.

5. **Specific Re-Assessment:** shall comprise a full relevant history and a comprehensive physical examination of one or more systems but not requiring an evaluation of the patient as a whole.* This service is the admission assessment when the patient has been seen prior to admission in the same illness. It is included in the surgical fee except for those procedures marked I.O.P.
6. **Partial Assessment:** shall comprise a history of the presenting complaint, the necessary physical examination, an appropriate record and advice to the patient. It also applies to subsequent visits for assessing the response to treatment and/or advice provided in a previous service.
7. **Intermediate Assessment:** is a primary care service for physicians providing general practice or paediatric services and is a more extensive assessment than a minor assessment. It shall comprise a history of the presenting complaint(s), enquiry concerning and examination of the affected part(s), region(s) or system(s) or emotional disorder as needed to make a diagnosis, exclude disease and/or assess function, an appropriate record, and advice to the patient.*
8. **Multiple Systems Assessment:** shall comprise a detailed history and examination of more than one system, part or region, an appropriate record and advice to the patient.
9. **Minor Assessment:** is a brief assessment comprising the necessary history, examination of the affected part or region, an appropriate record and advice to the patient.
10. **Mini Assessment:** applies when a physician examines and/or treats a patient for a completely unrelated problem in addition to the examination/treatment of a W.C.B. related problem (for which the W.C.B. will only pay a minor assessment) during the same office visit. The fee for the mini assessment is \$4.(00) + 1.(008).
11. **Re-Assessments (by physician on duty in the Emergency Department):** one re-assessment may be charged when, at least two hours after the original assessment is completed (including appropriate investigation and necessary treatment), a subsequent assessment indicates that further provision of care and/or investigation is required and performed. Re-assessments are not to be claimed for discharge assessments nor when the patient is admitted by the physician on duty in the Emergency Department, nor when this assessment leads directly to referral for consultation.

PREAMBLE

12. **Well Baby Care:** the periodic visits of a well baby during the first two years of life involving complete examination with necessary weight and measurements and instructions to the parent(s) regarding health care.
13. **Annual Health or Annual Physical Examinations (Including Primary and Secondary School Examinations):** shall comprise all the elements of a general assessment as it pertains to an individual after the second birthday who presents and reveals no apparent physical or mental illness.
OHIP benefits for any one physician are limited to one Annual Health Examination per patient per year after the second birthdate. To qualify, an Annual Health Examination normally must be requested by the patient rather than a third party. Regulation 452 of Revised Regulations of Ontario, 1980 under the Health Insurance Act, examinations for the purpose of "legal requirements or proceedings" are excluded from coverage. However, it is recognized that an Annual Health Examination will satisfy some or all of the requirements for examinations required by statute but excluded by the above mentioned Regulation. In such instances and where a prior claim for an Annual Health Examination has not been submitted to the Plan in the previous twelve months for that patient, it would be appropriate to submit a claim to OHIP for this service. The OHIP benefit in these cases covers the Annual Health Examination only and not any charges peculiar to the legal requirements, such as charges for the completion of forms.
14. **Long-Term Institutional Care** includes the listings for consultations, assessments and other visits to patients in chronic care hospitals, convalescent hospitals, nursing homes and other institutions in which such patients are covered by extended care legislation.
Admission Assessments to Long Term Care Institutions:
Type 1 — applies when the admitting physician has not performed a consultation, general assessment or general re-assessment prior to admission and when he carries out a general assessment (on admission) and provides a report for the medical record.
Type 2 — applies when the admitting physician has performed and claimed for a consultation, general assessment or general re-assessment prior to admission, makes an initial visit and records an admission note describing the condition of the patient following admission.
Type 3 — applies when the admitting physician readmits a patient after a 7 day stay in another institution; the admitting physician shall carry out a general re-assessment and provide a report for the medical record.
15. **Subsequent Visits to Long Term Care Institutions:** include the supervisory care as well as the active treatment of acute intercurrent illness when the physician is already in the long term care institution. The supervisory care component includes discussion with the patient and/or family and/or examination of the patient and also includes as required, discussion with the nurse, chart review and annotation of the chart. When acute intercurrent illness requires a special visit, the appropriate fees under General Listings and Premiums apply. For acute illnesses requiring visits after the monthly maximums have been claimed, extra visits should be made on an I.C. basis (W121 — \$8.60).
16. **Pre-dental General Assessment:** is the history and examination of a patient required prior to dental surgery under anaesthesia in hospital. A diagnosis is not required by OHIP for this service.
17. **Newborn Care:** is the routine care of a well baby up to ten days of age and should include a complete physical examination of the baby and necessary instructions to the mother. The service shall involve at least two visits and normally may not be claimed for the same patient by more than one physician.
When a well baby is transferred to another hospital (because of the mother's state of health, for example) claims for newborn care by a physician at each hospital may be appropriate.
18. **Low Birth Weight Baby Care:** is the care of a baby weighing less than 2.5 kilograms at birth.
19. **Psychotherapy:** is any form of treatment for mental illness, behavioural maladaptations, and/or other problems that are assumed to be of an emotional nature, in which a physician deliberately establishes a professional relationship with a patient for the purposes of removing, modifying, or retarding existing symptoms, or attenuating or reversing disturbed patterns of behaviour, and of promoting positive personality growth and development. Accordingly, therefore, a psychotherapeutic procedure may be claimed if a half hour or major part thereof has been spent by a physician in such treatment of the patient. The minimum time period for psychotherapy (to be charged as such) is twenty minutes. In order to claim for a major portion of a second or subsequent time interval of psychotherapy for the same patient during the same visit, the preceding time interval must be a full 30 minutes of psychotherapy. When psychotherapy extends beyond thirty minutes, the major part (16 minutes) of the next half hour must be spent with the patient to qualify for an additional half hour fee. Similarly, after one hour of psychotherapy, the major part (16 minutes) of the next half hour, must be spent to qualify for an additional half hour, and so on.
20. **Counselling:** as distinct from psychotherapy, counselling is that form of activity in which the physician engages in an educational dialogue with the patient(s), on an individual or group basis wherein the goal of

PREAMBLE

the physician and patient(s) is to become aware of the patients' problems or situation and of modalities for prevention and/or treatment. Counselling is not to be claimed for the advice that is a normal part of any consultation or assessment, for ongoing treatment or as a substitute for patient assessment fees. Counselling must be rendered personally by the attending physician.

21. **Genetic Counselling:** includes interviewing the appropriate family members, the collection and assessment of adequate clinical and genetic data to make a diagnosis, construct a pedigree, and assess the risks to persons seeking advice. It includes imparting this information and the various alternatives to the appropriate family members for dealing with the problem in such a way that they can make informed decisions about the genetic problem.
22. **Documentation:** when a physician examines or treats a patient, an appropriate record of such service should be made. See Appendix B.
23. **Visit for Procedure:** when the sole reason for an office visit is the performance of a certain procedure, the listed benefit for the procedure will apply. (See Diagnostic and Therapeutic Procedures Preamble for exceptions.) When procedures are carried out in the office, emergency or outpatient department on an elective basis, special visit fees should not be claimed in addition to the procedural fee. When procedure(s) are carried out by a physician's employee(s) under the direct supervision of the physician, the usual claims may be made for procedure(s) which are generally and historically accepted as those which may be carried out by the nurse or other medical assistant in the employ of the physician. "Procedures" in this context do not include such services as assessments, consultations, psychotherapy, counselling, etc. Direct supervision requires that during the procedure the physician be physically present in the office or clinic at which the service is rendered.** While this does not preclude the physician from being otherwise occupied he should be in personal attendance on enough occasions to ensure that procedures are being performed competently and he must at all times be available immediately to approve, modify or otherwise intervene in a procedure as required in the best interests of the patient.

For physiotherapy procedures performed under direct physician's supervision as detailed above, see Code G467 on Page 52.

24. **Health Examination:** this may vary in extent according to the purpose for which required (e.g. pre-employment, insurance, free from infection, etc.). **This is not a benefit of OHIP** and the fee should be according to the type of assessment necessary for this purpose and billed to the patient or party requesting the service.
25. **Age:** (unless otherwise specified)
Newborn—up to 10 days of age.
Infant—up to 2 years.
Child—up to and including 15 years.
Adolescent—up to and including 17 years.
Adult—18 years or over.
26. **Most Responsible Physician:** is the attending physician who is primarily responsible for the day to day care of the patient in hospital. In cases of unusual severity where the consultant assumes the role of the most responsible physician, the consultant may claim on a per visit basis and the family physician may claim supportive care. Where the family physician remains the most responsible physician and requests only a consultation, the family physician may claim on a per visit basis and the consultant may claim a consultation only.
27. **Transferral and Referral:**
- (a) A **referral** takes place when one physician requests for his patient the services of another. The services of the latter may consist of:
- (i) an opinion (i.e. a consultation).
 - (ii) diagnostic tests or procedures (e.g. skin test, biopsy, etc.).
- Note: In such cases the referring physician continues to treat the case himself.
- (iii) treatment (surgical or medical).
- The referring physician's OHIP registration number must be included on the claim submission.
- (b) A **transferral**, as distinguished from a referral, takes place where the responsibility for the care of the patient is completely transferred permanently or temporarily, from one physician to another (e.g. where the first physician is leaving temporarily on holidays and unable to continue to treat the case). Physicians who are substituting for other physicians should consider that patients of the latter have been temporarily transferred (not referred) to their care. The physician to whom the patient is transferred should be regarded as substituting for the other physician. Where the care of the patient

*For laboratory and other investigation performed in conjunction with a consultation or visit, see Diagnostic and Therapeutic Procedures and Laboratory Medicine.

PREAMBLE

involves a benefit containing several components such as surgery, the physicians may consider the surgical benefit a team benefit and decide among themselves how each is to be compensated; traditionally physicians in these circumstances have reciprocated by exchanges of coverage for each other. When physicians routinely or frequently substitute for each other in providing hospital visits to registered bed patients in active treatment hospitals e.g. weekend coverage or daily rounds by various members of a group, the most responsible physician may claim for all the visits.

28. **Concurrent Care:** applies when the family physician remains the most responsible physician but because of the seriousness or complexity of the condition, requests continued directive care by a consultant. The family physician may claim on a per visit basis and the consultant may also claim on a per visit basis not to exceed four such claims during the first week of concurrent care and not to exceed two such claims each week thereafter while the patient's condition remains serious—this arrangement being agreeable to both physicians.
29. **Multidisciplinary Care:** applies when the complexity of the medical condition requires the services of several physicians in different disciplines. In such cases, each physician should render a separate account on a per visit basis. This does not refer to a situation where a single benefit for a team of physicians is listed in the schedule.
30. **Supportive Care:** is the care rendered in hospital by the referring physician, who is not actively treating the case (e.g. writing orders), to a patient under the care of another physician, at the desire of the patient or family, for purposes of liaison or reassurance. The physician should be remunerated for this care on a per visit basis not to exceed four such claims during the first week of supportive care (determined by the date of the first supportive care visit) and not to exceed two such claims each week thereafter. If medical complications develop or are present in the post-operative period which require active management by the referring physician, hospital medical care fees should be applied not supportive post-operative fees.
31. **Terminal Care (In Hospital):** applies to one designated physician responsible for the care of a terminally ill patient. Terminal care will be deemed to start when there is no aggressive treatment of the underlying disease process and care is directed to maintaining the comfort of the patient until death occurs. Terminal care should be claimed for retroactively after death on the basis of visits actually rendered for a period not to exceed four weeks prior to death. Terminal care visit fees as described above do not apply when unexpected death occurs after prolonged hospitalization for another diagnosis unrelated to the cause of death.
32. **Independent Consideration—"I.C.":** Independent consideration may be given in exceptional circumstances and where a set fee is not listed in the Fee Schedule. Claims rendered under this heading should contain an explanation of the fee claimed. It is helpful if claims for I.C. include an operative or consultation report and a comparison of the scope and difficulty of the procedure with other procedures in the Schedule.
33. **Specialist:** A specialist shall be defined (for purposes of application in the case of any given service within this Schedule) as one who holds a certificate from The Royal College of Physicians and Surgeons of Canada in the specialty which normally is considered to encompass the service in question.
A specialist rendering services outside of his specialty should use the codes and tariffs listed in the General Practice section of the Schedule.
34. **Differential Benefits:**
 - (a) Where only one procedural fee is listed, it shall apply to any physician rendering the service, regardless of specialty.
 - (b) Specialists providing primary care in general practice may claim the appropriate visit fees (as defined in the Preamble) listed under the heading Family Practice and Practice in General. Certain other non specialist services such as counselling and interviews are under the same heading for the use of any physician providing such services.
 - (c) Specialists in paediatrics who practice allergy may claim specialist fees for their allergy services regardless of the age of their patients.
35. **Referring Physician's Services:**
 - (a) For the services rendered prior to the operation, the referring physician should claim on a fee-for-service basis, for example:
 - (i) Visits as rendered.
 - (ii) In addition to (i) above, in acute cases if detained, he may claim detention fees if appropriate. See para. 44) p. xiv.
 - (b) (i) For services rendered as an assistant during the operation, the referring physician should claim an assistant's fee.

PREAMBLE

- (ii) In cases in which the referring physician is required to be present in the interest of the patient but does not actually assist at the surgical procedure, he should claim on a hospital visit basis for this service.
- (c) For the services rendered after the operation, the referring physician may claim on the basis of supportive care fees as outlined in the schedule.

36. Assistants' Services:

- (a) The assistants' fees are determined by adding the listed basic units and time units and multiplying the total number of units by \$7.50. For all cases commencing after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays, increase the total assistant's fee by 30%. (E400B). For all cases commencing after midnight and before 7:00 a.m. any night of the week, increase the total assistant's fee by 50% (E401B).
- (b) When a physician is required to make a special visit to the hospital to assist at surgery, he may charge a special visit premium of \$15.00 (C998B) for a case commencing after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays, or \$30.00 (C999B) for a case commencing after midnight and before 7:00 a.m. any night of the week. These premiums are in addition to the E400 and E401 premiums but apply only to the first patient treated on each special visit.
- (c) The time units are computed by allowing one unit (\$7.50) for each 15 minutes or part thereof of time (up to two hours) spent by the assistant. When assisting for more than two hours per case, time units for periods in excess of two hours are computed by allowing two units for each 15 minutes or part thereof. Time for purposes of these calculations includes scrub time and time spent in the operating room. If billings are being made in coded form (see explanatory comments at front of Fee Schedule), the suffix B should be added to the fee code for the procedure. The basic units should be listed separately from the time units on the claim card.
- (d) When multiple or bilateral surgical procedures are done during the same anaesthetic, the assistant's benefit shall be based on the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the assistant shall be entitled to receive a full assistant's benefit for each procedure.
- (e) In surgical procedures requiring more than one assistant, the second assistant shall compute his fee on the same basis as the first assistant. Each claim for second assistant should be accompanied by a statement from the operating surgeon confirming the necessity for his/her services.
- (f) When a surgeon requires an assistant at a procedure for which no assistant's fee is listed, the assistant may calculate his fee by taking the number of basic units used by the anaesthetist, adding his time units and multiplying the total number of units by \$7.50.
- (g) When assistants at surgery bill for procedures for which no assistants' fees have actually been listed in the schedule, the assistants should support their claims with a statement of explanation from the surgeon, confirming the medical necessity for their attendance.
Note: Code M400B to be used by OHIP for services performed by an assistant where no assistant units are listed. All such services must be assessed for appropriateness by the OHIP Medical Consultant.
- (h) Where the attendance of a physician is requested by the patient's other medical attendants for the sole purpose of monitoring or special supportive care, and when the physician is in constant attendance, the fee shall be 3 units plus time (E003B).
- (i) When an anaesthetic has begun and the operation is cancelled prior to commencement of surgery, the assistant who has scrubbed but is not required to do more, should claim 3 basic units plus time units. (E006B). If the operation is cancelled after surgery has commenced, the procedural basic units plus time units will apply. If the procedure is cancelled prior to the induction of anaesthesia and the assistant is scrubbed, a subsequent hospital visit only may be claimed.

37. Anaesthetists' Services:

- (a) The tariff is for all types of anaesthesia. The fee is for professional services, including pre-anaesthetic evaluation and post-anaesthetic follow-up and all immediate supportive measures, and does not include the cost of materials used.
- (b) If an anaesthetist is requested by another physician to see a patient in consultation (see para. 1(a)) because of the complexity, obscurity or seriousness of the case prior to the administration of an anaesthetic, he may claim a consultation fee as well as the anaesthetic fee. If this consultation is provided less than 36 hours prior to the administration of an anaesthetic, this consultation should be claimed at \$50.60 under fee code E015. The routine pre-anaesthetic evaluation of the patient required by the Public Hospitals Act does not qualify as a consultation, regardless of where and when this evaluation is performed. Anaesthetic consultations do not apply when hospital, departmental by-laws, statutes or policies require automatic consultations on any patient requiring anaesthesia.
- (c) If an anaesthetist examines a patient prior to surgery and the surgery is cancelled prior to the induction of anaesthesia, he or she may claim a subsequent hospital visit fee for this service. When an anaesthetic

*For laboratory and other investigation performed in conjunction with a consultation or visit, see Diagnostic and Therapeutic Procedures and Laboratory Medicine.

PREAMBLE

has begun and the operation is cancelled due to a complication prior to the commencement of surgery, the anaesthetist should claim 4 basic units plus time (E006C). If the operation is cancelled after surgery has commenced, the procedural basic fee plus time units will apply.

- (d) The anaesthetist's fees are determined by adding the basic and time units together and multiplying the sum by **\$8.62** for certified anaesthetists and **\$7.95** for non-certified anaesthetists. For cases commencing after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays, increase the total anaesthetic fee by 30% (E400C). For cases commencing after midnight and before 7:00 a.m., any night of the week, increase the total anaesthetic fee by 50% (E401C).
- (e) When an anaesthetist is required to make a special visit to the hospital to administer an anaesthetic, he may claim a special visit premium of **\$15.00** (C998C) for a case commencing after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays or **\$30.00** (C999C) for a case commencing after midnight and before 7:00 a.m. any night of the week. These premiums are in addition to the E400 and E401 premiums but only apply to the first patient treated on each special visit.
- (f) Basic units are listed for most procedures and include the value of all anaesthetic services except the actual time spent administering the anaesthesia, any modifying factors, or unusual detention with the patient (see paragraph n).
- (g) Except during maintenance of continuous conduction anaesthesia time units are computed by allowing one unit for each 15 minutes or part thereof of anaesthesia time (up to two hours); following the first two hours of anaesthesia, time units for periods in excess of two hours shall be computed on the basis of two units for each 15 minutes or part thereof. Anaesthesia time begins when the anaesthetist is first in attendance with the patient for the purposes of creating the anaesthetic state and ends when he is no longer in personal attendance (when the patient may be safely placed under customary post-operative supervision).
- (h) If claims are being made in coded form (see explanatory comments at front of Fee Schedule), the suffix C should be added to the fee code for the procedure.
- (i) In special cases when the anaesthetic services of more than one anaesthetist are deemed necessary in the interest of the patient, the second anaesthetist shall charge 4 basic units (E001) plus time units for the time spent assisting the first anaesthetist.
- (j) When multiple or bilateral surgical procedures are done during the same anaesthetic, the anaesthetic benefit shall be based upon the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the anaesthetist shall be entitled to receive a full anaesthetic fee for each procedure.
- (k) In procedures where no value is listed, or with I.C., the basic portion of the calculated value will be the same as listed for a comparable procedure considering region and modifying conditions or techniques.
- (l) When a pump with or without an oxygenator and with or without hypothermia is employed in conjunction with an anaesthetic, the anaesthetic "Basic Units" will be 28 units; this replaces the listed basic units for the procedure. To compensate for variations in anaesthetic practice, special respiratory intensive care or detention for the purpose of intensive treatment of other types should be claimed for separately under the appropriate headings.
- (m) Controlled hypotension may be billed for (10 units) when it is carried out in association with anaesthesia using any technique to deliberately lower and maintain the mean blood pressure by at least 25%. **Incidental hypotension from the use of any anaesthetic agent does not constitute controlled hypotension.** The additional 10 units may be claimed under E004C.
- (n) When unusual detention with the patient before or after anaesthesia is essential for the safety and welfare of such patient, the necessary time will be valued on the same basis as indicated for the anaesthetic time.
- (o) For detention not associated with anaesthesia detention rates and criteria (see paragraph 42 on page xiii).
- (p) When the attendance of the anaesthetist is requested by the patient's other medical attendants for the purpose of monitoring or special supportive care, and when the anaesthetist is in constant attendance, the benefit shall be 3 units plus time. The code is E003C.
- (q) **Introduction of a catheter for continuous conduction analgesia and anaesthesia in obstetrics has a basic value of 6 units. Maintenance and/or supervision may be claimed at one unit for each half hour of maintenance to a maximum of 5 units. No fee is chargeable for the first hour following introduction of the catheter and first dose. Time units for delivery may be claimed at one unit per quarter hour.**
- (r) When a physician administers an anaesthetic and/or other medication prior to or during a procedure(s) and also performs a procedure(s) on the same patient, he should claim for the procedure(s) only. However, when a physician administers a pudendal, femoral, intercostal, sciatic, ilioinguinal, iliohypogastric, **ulnar, median or radial** block in addition to performing a procedure, he may claim **\$11.25** (G224) in addition to the procedure.
- (s) When hypothermia is used by the anaesthetist in procedures not specifically identified as requiring hypothermia, the basic value is 25 units. This basic value replaces the basic value listed in the Schedule for the procedure. When the basic value claimed is 25 units, the anaesthetic service may be claimed under code E002C.

PREAMBLE

- (t) When a patient is known to have malignant hyperthermia or there is a strong suspicion of susceptibility, and the anaesthetic requires full malignant hyperthermia set up and management, add 2 units to the anaesthetic claim (E012).
- (u) Anaesthetic management for the emergency relief of acute upper airway (above the carina) obstruction (excluding choanal atresia) — basic 10 units (E013).
- (v) When one anaesthetist starts a procedure and is replaced by another part way through a surgical procedure or delivery, the first anaesthetist should charge the appropriate basic fee plus time units and the second anaesthetist should charge for time units only. The second anaesthetist should use code E005C for such time units except in the case of continuous conduction anaesthesia; for which P015 (plus E100C) applies (see para. 37(q)). E002C, E003C, E004C, E005C qualify for the premiums E400C or E401C only if the case originally started within the time stated under para. 35(d) above.

Each anaesthetist should state on his/her claim card which part of the anaesthetic is being claimed and the time begun and completed.

- (w) General anaesthesia for the purposes of this Fee Schedule includes all forms of anaesthesia except local infiltration.
 - (x) Maintenance/Supervision of epidural catheter for relief of pain (G247) see p. 49. For visits rendered after 5 p.m. and after midnight or on Saturdays, Sundays and Holidays add 30% (E402). For visits after midnight but before 7 a.m. add 50% (E403).
38. **General Listings:** include the basic listings for consultations, assessments and other visits wherever they are rendered, except for non-emergency services to hospital or long-term care institution in-patients and for care rendered by a physician on duty in the emergency department. These latter services are listed separately in the Schedule.
39. **Non-Emergency Hospital in-Patient Services:** include the fee listings for consultations and other visits rendered to registered bed patients on a non-emergency basis.
- (a) When a patient has not been seen previously by the physician in charge, the first visit after admission may be claimed as a consultation or general or specific assessment. When the patient has been previously attended before admission, the first visit after admission may be claimed as a general re-assessment or specific re-assessment (depending on the specialty) if the patient has been seen before in the same illness. However when a patient is admitted to hospital by one physician and is subsequently transferred to another physician, only one general or specific assessment or re-assessment may be claimed per patient admission.
 - (b) Subsequent routine visits should be claimed as subsequent visits (minor assessments). Payments for hospital visits are usually limited to one per patient per day prior to the weekly and monthly limitations that apply after the patient has been hospitalized for 5 weeks, (6 weeks for paediatricians). However, it is not the intent of the Fee Schedule that visit fees be claimed for every day a patient is in hospital unless a physician actually visits the patient each day. For acute illnesses or exacerbation of original illness requiring hospital visits after 5 weeks of hospitalization, claims for extra visits should be made on an independent consideration basis.
 - (c) When a patient in hospital is referred by one physician to another, the second physician should not be limited by the "Subsequent Hospital Visit" formula for the number of hospital visits already rendered by the first physician. In other words, the second physician is entitled to claim for his visits up to 5 weeks just as if the patient was being attended to in hospital for the first time. If the patient is transferred to the care of another physician, the "Subsequent Hospital Visit" formula would apply just as it would if only one physician was involved in the care.
 - (d) When a physician is already in the hospital and is asked to assess one of his own in-patients on a non emergency or emergency basis, the subsequent hospital visit listings apply. However if he is asked to assess another physician's patient on an emergency basis, the General Listings apply.
40. **Emergency Department — Physician on Duty Services:** include the fee listings for minor and multiple systems assessments and re-assessments and the specific premiums applicable to the services rendered by the physician on duty. Any physician on duty in the emergency department should claim these fees regardless of his specialty.

The listings under the heading "Emergency Department — Physician on Duty" are meant to apply to those circumstances wherein either emergency or other physicians have elected or are required to be physically and continuously present in the Emergency Department or environs for an arranged designated period of time. These listings also apply to services rendered to patients who arrive in the Emergency Department after a physician on call has made a special visit and examined and/or treated the waiting patient(s) who were responsible for the special visit. When an emergency physician is required to make a special visit to the Emergency Department prior to or after his regular arranged designated period of time on duty, he may charge the appropriate fee under the General Listings plus the applicable special visit premium for the first patient assessed; all subsequent patients assessed during this visit to the hospital should be billed under the Emergency Department — Physician on Duty listings.

When a physician is on duty in the Emergency Department, sees a patient and admits the patient to hospital, this physician may claim a minor or multiple systems assessment depending on the service initially provided. Either the patient's attending physician or the emergency department physician (but not both) may render and claim the hospital admission assessment. If the emergency department physician

PREAMBLE

(instead of the attending physician) provides the admission general assessment, he may claim a general re-assessment (C004) as well as the initial assessment provided both services are actually rendered separately.

41. Long-Term Institutional Care: See paragraph B.14.

Premiums:

42. Special Visit Fees Applicable in Addition to Fees For Services Listed Under Consultations and Visits, Critical Care and Injections or Infusions (pages 1-14, 44, 47).

- (a) A special visit is one initiated by a patient or his representative which requires a physician to travel from one location to another to see a patient(s). The appropriate special visit applies when a physician makes a special visit to his office (outside normal office hours) even if his office is in his home, when he makes a special visit to the Emergency Department, O.P.D., hospital, long-term care institution, the patient's home or other location (hotel, roadside, ski slope etc.).
- (b) A special visit may also involve an emergency call with sacrifice of office hours. The benefits for this type of special visit apply in a situation where the demands of the patient and/or the physician's interpretation of the patient's condition is such that the physician responds immediately and makes a special visit at the sacrifice of regular office hours.
- (c) A special visit at night or on a Saturday, Sunday or holiday may be claimed when non-elective or emergent calls are made by the physician between 5:00 p.m. and 7:00 a.m. or are received and made on Saturdays, Sundays and Holidays. Holidays are defined for the purpose of this Schedule as New Year's Day, Good Friday, Easter Monday, Victoria Day, Canada Day, Civic Holiday, Labour Day, Thanksgiving, Remembrance Day, Christmas Day and Boxing Day. If any of these holidays fall on a Saturday or Sunday, the Friday before or Monday following will be recognized as the holiday.
- (d) Only one special visit (daytime; emergency call with sacrifice of office hours; or nights, Saturdays, Sundays and Holidays) may be claimed for the same patient, same visit. Special visits only apply to non-elective or emergent calls and do not apply to non-referred or transferred obstetrics. Special visits do not apply to visits on regular rounds nor do they apply to admission assessments of patients who have been admitted to hospital on an elective basis, regardless of the time performed.
- (e) An elective home visit is a visit to a patient's home deemed medically necessary by the physician, initiated by the physician or the patient and carried out at any time convenient to the physician. Physicians providing such services should charge in addition to the appropriate fee under the heading General Listings, the premiums under paragraph 42(i) only, even if the elective visits are rendered at Night, on Saturdays, Sundays and Holidays.

If an institution has arranged to have quarters in the same or in a proximal building in order that a physician will be available to make visits to the institution, particularly at night, these are not considered to be "special visits" to the institution.

If a physician is called to pronounce a patient dead, a minor assessment may be claimed along with the appropriate surcharge for the special visit.

- (f) When additional patients are assessed during special visits, the "additional patient" premiums are not normally applicable unless the additional patient himself qualifies for a special visit. However, extra patients seen during a home visit while the physician is there rendering a special visit to another patient also qualify for the "additional patient" premiums if an assessment is rendered. Patients who drop in to the office while the physician is there for reasons other than rendering a special visit do not qualify for any of the special visit premiums. Extra in-patients seen during a special visit to a hospital or other institution do not qualify for the "additional patient" premiums unless the physician has been asked specifically to see these extra patients as well. Patients seen during "office hours" held at night or on Saturdays, Sundays or holidays do not qualify for any of the special visit premiums.
- (g) When no consultation or visits may be claimed e.g. for post-op hospital visits by operating surgeon, the minimum premiums for special visits apply for additional patients seen during a special visit. Minimum premiums also apply to additional patients seen requiring Critical Care (excluding Respiratory Care and Neonatal Intensive Care), Injections or Infusions.
- (h) K992, C992, K993, C993 are also applicable to assistant and/or anaesthetist at non-elective surgery.
- (i) **Daytime Special Visits (Monday to Friday) to Emergency Department or O.P.D.:** for other locations see below.

K990 First patient seen add \$12.40

K996 First patient seen add 37.10

For each additional patient requiring a special visit and seen during same special

After 20 minutes if the physician spends more than this amount of time providing a minor, partial or intermediate assessment or subsequent hospital visit;

After 40 minutes if the physician spends more than this amount of time providing a specific or general re-assessment;

46. Non Elective Surgical Procedures, Obstetrics or Clinical Procedures Associated With Diagnostic Radiological Examination or Detention While in Attendance With Patient(s) in Ambulance: — when such procedures including fractures or dislocations or major invasive procedures contained in the list of Diagnostic and Therapeutic Procedures or elective procedures which because of intervening emergency procedure(s) commence after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays, increase the procedural fee(s) by 20% (E409). When the foregoing procedures commence after midnight and before 7:00 a.m. any night during the week, increase the procedural fee(s) by 50% (E410).

These premiums are not chargeable in addition to the obstetrical fee(s) if labour is induced by medical and/or surgical means by the same physician unless the reason for the induction is fetal distress, diabetes, severe pre-eclampsia — hypertension or abruption. However a forewater A.R.M or oxytocin augmentation of labour carried out on a patient in desultory labour does not constitute induction.

These premiums are not chargeable (during or after a "shift") by emergency or other physicians who have elected or are required to be physically and continuously present in the Emergency Department or environs for an arranged designated period of time.

E409 or E410 may not be claimed for procedures which mainly involve the interpretation of test results and are not applicable to assessments or consultations. Neither are they applicable to procedures listed in the Diagnostic Radiology, Nuclear Medicine or Diagnostic Ultrasound sections of the Schedule.
47. Non Elective Diagnostic Radiology, Laboratory Medicine, Nuclear Medicine or Diagnostic Ultrasound Examinations: — when a physician providing the foregoing services makes a special visit to see a patient in consultation, perform a procedure or conclude that a procedure is not medically indicated, between 5:00

PREAMBLE

p.m. to midnight or on Saturdays, Sundays and Holidays, a **\$24.75** premium (C109) should be claimed in addition to the appropriate consultation fee or procedural fee or by itself if the decision is made not to perform the procedure. For such services rendered between midnight and 7:00 a.m., the premium is **\$37.10** (C110).

- 50. Travelling Time:** may be charged directly to patients (since it is a non-insured service) when special visits are made by physicians to see patients outside their normal area of practice. Travelling time may be charged at the same rate as detention.

- If any of the above conditions are not met, the physician involved must submit claims to OHIP on his or her own claim cards.

PREAMBLE**APPENDIX D**

1. Surgery to alleviate significant physical symptoms that are refractory to medical treatment that has been actively undertaken for at least a six month period, or to restore or improve function to any area altered by disease, trauma or congenital deformity normally is a benefit under the Ontario Health Insurance Plan. Surgery solely to alter or restore appearance is not a benefit of OHIP except under the circumstances as listed in the following policy.
2. Emotional, psychological or psychiatric grounds are not considered sufficient reason for OHIP coverage of surgery for alteration of appearance except under exceptional circumstances.
3. On request of the attending physician, exceptions may be made on an independent consideration basis if the proposed surgery is to alter a significant defect in appearance caused by disease, trauma or congenital deformity, and if the surgery is
 - recommended by a Mental Health Facility (as designated by The Mental Hospitals Act) or equivalent, or
 - performed on a patient who is less than 18 years of age and the defect is in the area of the body which normally and usually would not be clothed, or
 - recommended by a Correctional Institution (tattoo removal only), or
 - essential in order to obtain employment as documented by the attending physician and either by a Canada Manpower Employment Centre or by an employer with regard to a specific job, (tattoo removal only).
4. In establishing this policy, it has been recognized that
 - peer acceptance in our society often is influenced disproportionately by the facies,
 - children are especially susceptible to emotional trauma caused by physical appearances.
5. Surgery to revise or remove features of physical appearance which are familial in nature is not a benefit of OHIP.
6. Within the context of this policy, the word "disease" does not include the normal sequelae of aging. Surgery to alter changes in appearances caused by aging is not a benefit of OHIP.
7. Within the context of this policy, the word "trauma" includes trauma due to treatment such as surgery, radiation, etc.
8. The phrase "reasonable period of convalescence" should be considered as two years. Independent consideration will be given to the questionable cases.
9. Authorization from OHIP is not required for all surgery to alter appearance. It is required only for those categories of procedures for which some cases may not be a benefit under OHIP policy.
10. Suitable documentation may be requested by OHIP in some cases before authorization can be considered.
11. The treatment of acute medical or surgical complications resulting from surgery for alteration of appearance and/or function is a benefit of the Plan whether or not the original surgery was covered by OHIP. No authorization is required.
12. Revision of surgery for alteration of appearance, because of undesirable results, is a benefit of the Plan if the original surgery was a benefit and if the revision either is part of a pre-planned staged process or occurs within a reasonable period of convalescence. OHIP authorization is required only if the original surgical procedure, if it had been carried out at the time of the proposed revision, would have required such authorization.

Surface Pathology**1. Trauma Scars****(a) Neck or Face**

- Includes ears and non-hair bearing areas of the scalp.
- Repair of all such scars is a benefit of OHIP, except for scars resulting from previous surgery to alter appearance that was not originally a benefit of OHIP.
- Repair procedures will depend upon the lesion but may include excision, revision, dermabrasion, etc. Rhytidectomy procedures for cosmetic reasons, however, are not a benefit of OHIP.
- OHIP authorization for repair of such scars is not required but manual assessment of the claims will be necessary to ensure that the most appropriate procedure codes are used.

(b) Scars in other Anatomical Areas

- Repair of scars which interfere with function or which are significantly symptomatic (pain, ulceration, etc.) is a benefit of OHIP.
- Scars with no significant symptoms or functional interference
 - (i) Repair is a benefit if such a repair is part of a pre-planned post-traumatic (including post-surgical) staged process. OHIP notification must be included as part of the planning process.
 - (ii) Other post-traumatic scar revision is not a benefit of OHIP.
- OHIP authorization is required for all scar repair procedures in areas other than the face or neck. Scar revision codes should be used (R026-R029).

2. Keloids**(a) Head or Neck**

- The repair of all such keloids is a benefit of OHIP.

- Repair procedures may include excision, injection, dermabrasion or planing.
- No OHIP authorization is required.
- (b) Excision of keloids in other areas
 - Not a benefit of OHIP unless significantly symptomatic (pain, ulceration, etc.) or there is functional impairment.
 - OHIP authorization is required.
- 3. Tattoos**
 - (a) Face or Neck
 - Excision or destruction of all such tattoos is a benefit of OHIP.
 - Authorization is not required for adjudication of repair procedures will be identical to that for scars in these areas.
 - (b) Other Anatomical Areas
 - Excision or destruction of concentration camp or P.O.W. tattoos is a benefit of OHIP. Otherwise, not a benefit of OHIP except as described in Para D-3 (Page xix).
- 4. Benign lesions such as naevi, keratoses, spider naevi, papillomata, neurofibromata**
 - (a) Face or Neck
 - Excision or destruction of these lesions is a benefit of OHIP.
 - Authorization is not required.
 - (b) Other anatomical Areas
 - Normally not a benefit of OHIP if removed for alteration of appearance only, rather than for medical necessity or because of clinical suspicion or evidence of malignancy.
 - Removal of very large lesions in patients less than 18 years of age is a benefit of OHIP.
 - Authorization is not required but a statement of the reason for removal must accompany the claim.
- 5. Hair Loss**
 - (a) Head or Neck
 - (i) Patients less than 18 years of age
 - Repair is a benefit for non-hereditary etiologies.
 - Authorization is not required. However, if it is possible that a planned staged procedure will extend beyond the age limit, pre-authorization should be obtained, since it will be necessary after the 18th birthday.
 - (ii) Post-traumatic
 - Repair to the area of traumatic hair loss is a benefit of OHIP only if carried out within a reasonable period of convalescence. (See Para 7, page xix).
 - OHIP authorization is required.
 - Usual repair procedures may include skin shifts of flaps, skin grafts, or hair plugs.
 - (iii) Other Etiology
 - Not a benefit of OHIP.
 - (b) Other Anatomical Areas
 - Not a benefit of OHIP.
- 6. Epilation of Hair**
 - (a) Face
 - This procedure is a benefit of OHIP only for those patients with documented endocrine abnormality or drug-induced hirsutism.
 - (b) OHIP authorization is required.
 - (c) Other Anatomical Areas – Not a benefit of OHIP.
- 7. Redundant Skin**
 - (a) Excision of redundant skin for elimination of wrinkles, etc. is not a benefit of OHIP.
 - (b) Blepharoplasty is not a benefit of OHIP unless there is documented evidence of medical necessity from the appropriate physician such as visual field defect caused by the redundant eyelid skin. OHIP authorization is required. (Include documentation of visual fields).

Sub-Surface Pathology

1. Congenital deformities

- (a) Head or Neck
 - Repair is a benefit of OHIP except for:
 - surgery to revise or remove features which are familial in nature or do not interfere with function
 - surgery to correct “outstanding ears” in patients who are eighteen years of age or over.
 - OHIP authorization is required.
- (b) Other Anatomical Areas
 - Normally not a benefit of OHIP if surgery is for alteration of appearance only.

2. Post-Traumatic Deformities

- Reconstructive procedures are a benefit at the acute stage; within two years, or if part of a pre-planned staged process of repair.
- Repair of procedures may include bone revision, tissue shifts and grafts, prosthesis implantation, etc.
- OHIP authorization is required for repairs beyond the acute stage.

3. **Deformities resulting from local disease (such as loss or distortion of bone, muscle, connective tissue, adipose tissue, etc.)**
 - (a) **Head or Neck**
 - Reconstructive procedure for significant abnormalities are a benefit at the acute stage; during a chronic disease process; within a reasonable period of convalescence (see Para 7, Page xix) or if part of a planned staged process of repair initiated during one of these periods.
 - Repair procedures normally could include tissue grafts, flaps or shifts, bone revision, prosthesis insertion, etc.
 - Face lifts, modified face lifts, brow lifts, etc., are not a benefit of the Plan if skin only is involved in the procedure. However, a repair such as ptosis repair or face lift with underlying slings is a benefit of OHIP if the procedure is to correct significant deformity following stroke, cancer, VIIth nerve palsy, etc.
 - OHIP authorization is required for repair of deformities resulting from local disease.
 - (b) **Other Anatomical Areas**
 - Not a benefit of OHIP if the correction is for appearance only.
4. **Breast Surgery**
 - (a) **Augmentation Mammoplasty**
 - This procedure is a benefit of OHIP unilaterally or bilaterally for a female patient with breast aplasia.
 - It may be an OHIP benefit unilaterally for a female patient with a severely hypoplastic breast. Additional documentation may be required.
 - The correct code for the repair procedure is R112.
 - OHIP authorization is required.
 - (b) **Post-Mastectomy Reconstruction**
 - Unilateral or bilateral breast reconstruction is a benefit of OHIP when the procedure is subsequent to total or partial mastectomy (including wedge resection) or prophylactic mastectomy as listed in the Schedule of Benefits.
 - Authorization is not required.
 - (c) **Reduction Mammoplasty**
 - Reduction Mammoplasty may be approved where there is significant associated symptomatology. Ptosis and/or size are not sufficient grounds for OHIP coverage of reduction mammoplasty.
 - Unilateral Reduction Mammoplasty may be a benefit of the Plan if there is gross disproportion present or in association with approved unilateral augmentation mammoplasty, or post mastectomy reconstruction of the contralateral breast. Additional documentation may be required.
 - OHIP authorization is required.
 - (d) **Mastectomy**
 - This procedure is a benefit of the Plan.
 - Authorization is not required.
 - (e) **Accessory Breasts or accessory nipples**
 - Excision of such accessory tissue is a benefit of the Plan.
 - The appropriate code should be used from the Schedule listings under Skin and Subcutaneous tissue.
 - Authorization is not required.
5. **Septorhinoplasty**
 - This is a benefit of OHIP when the rhinoplasty component is necessary to obtain an adequate airway or following trauma within 2 years or part of a pre-planned staged plastic repair. (See Para 7, Page xix).
 - In cases where a septoplasty is necessary to improve function and a rhinoplasty is done to improve the cosmetic effect, OHIP will pay the part of the operation that was medically necessary (e.g. if a septorhinoplasty is performed and a septoplasty was necessary to improve the airway, OHIP will pay M012 and the surgeon is entitled to claim the difference from the patient.)
 - OHIP authorization is required. A description of the external deformity should be provided.
6. **Excision of excess fatty tissue and/or skin is not a benefit of the Plan except for panniculectomy where there is significant symptomatology.**
 - OHIP authorization is required.
7. **Sex-Reassignment Surgery**
 - (1) Sex-reassignment surgical procedures are a benefit of OHIP only if they are performed on patients who have completed the Gender Identity Clinic program operated by the Clarke Institute of Psychiatry in Toronto. Moreover, claims are accepted for payment only for those patients for whom the Clinic has recommended that surgery take place. This surgery need not take place in Toronto or even in Ontario. Surgery recommended by the Clinic which takes place outside the Province of Ontario may be approved for payment at rates in accordance with the current OHIP Schedule of Benefits.
 - (2) Within the foregoing guidelines, reconstruction of genitalia and mastectomy are benefits of the Plan. However, since the hormonal treatments associated with sex-reassignment themselves give rise to breast enlargement, augmentation mammoplasty or breast reconstruction in a male to female conversion is not a benefit of OHIP, in keeping with the previously outlined policy regarding breast surgery in females.
OHIP authorization is required.

Team Management in a Rehabilitation Unit (active in-patient rehabilitation management from the initiation of rehabilitation care).

Active in-patient rehabilitation management from the initiation of rehabilitation care as it applies to fee codes H312, H317 and H319 means when this service is rendered by one physiatrist even if part of the service is rendered in an active treatment hospital and part is rendered in a rehabilitation unit, the weekly and monthly limitations under the following fee codes apply to the total rehabilitation care rendered. In other words, it is not possible to charge the maximum fees allowed under C312, C317 and C319 and then start billing de novo under H312, H317 and H319 under the above circumstances.

H312	up to twelve weeks per visit	13.10
H317	from thirteenth to twenty-sixth week (not to exceed \$39.30 per week) per visit	13.10
H319	twenty-sixth week onwards (not to exceed \$78.60 per month) per visit	13.10

------	---	-------

Physiatric Management: applies to physiatrists regulating the day to day management of patients when medical necessity requires prescription development, advice and supervision. It may be billed on the days when rehabilitation services are provided to patients seen previously by the physiatrist for consultation or assessment. The fee is not meant as an administrative fee for supervising a department of rehabilitation nor is it to be charged on the same day as claims are made for any other services which are provided by the physiatrist to the same patient(s). This fee applies only to those patients who require and receive frequent attention by the physician during the course of rehabilitation with regard to rehabilitative services of physical or occupational therapy, speech therapy and discharge planning

NUCLEAR MEDICINE—IN VIVO

Column T – is the technical benefit for the production of records, radiopharmaceutical agents, apparatus, premises, technical services, administration and secretarial services.

Column P₁ – is the professional benefit for supervision of the procedure, appropriate patient interview and/or examination, correlation of related data, interpretation of results, and provision of a written report. The physician need not be continuously present in the nuclear medicine department or private facility while the procedures are being carried out but must be physically present frequently enough to carry out the appropriate patient interview and/or examination and approve, modify or intervene in the procedures as required.

Column P₂ – is the professional benefit for interpretation of results and provision of a written report. If the physician does not meet the criteria for P₁ or has claimed any visit in conjunction with that Nuclear Medicine procedure, the lesser professional fee (P₂) will be claimed.

- Notes: 1. If quantification or data manipulation is carried out in addition to visual inspection of imaging studies, add 30% to the appropriate professional benefit. For claim purposes, use prefix "Y". Such activity must add significant diagnostic information not available by inspection alone and does not include simple image enhancement techniques such as smoothing, background subtraction, etc. Recording of images on videotape for replay and production of images on the video display of a computer do not in themselves justify the additional benefit.
The claims for cardiac wall motion studies and calculation of ventricular ejection fraction (Z010 and Z012) already include an allowance for data manipulation as a general rule and no additional benefit may be claimed. The additional computer benefit may be claimed only when additional cardiac quantifications are performed i.e. stroke volume ratio and volume response curves and/or phase analysis.
2. The total benefit is arrived at by adding T plus P₁ (first code listed e.g. Z006) or by adding T plus P₂ (second code listed, e.g. Z925).
3. Examination of Brain, Lung, Liver or Spleen is limited to one view, the benefit (T and P₁ or P₂) is to be reduced by 50%.
4. Repeat studies on the same day may be claimed only after exercise or drug intervention.
5. The phrase "nuclear medicine specialist" should be interpreted as "nuclear medicine physician" since not all physicians practising nuclear medicine are certified as specialists in this discipline by the Royal College of Physicians and Surgeons.

	The listed benefits are for the professional services of a certified therapeutic radiologist, the services of a specialist for the intracavitary or interstitial application of radium or sealed sources and the services of a specialist using non-sealed sources of radioisotopes in a laboratory authorized by the Atomic Energy Control Board of Canada. Other medical services to the patient are not included in these figures. The cost of material is additional.

DIAGNOSTIC RADIOLOGY

Column T – The benefit for radiological examination including the production of radiographs, supplying of contrast media, apparatus, premises, technical services, administration and collection costs.

Column P – The benefit for consultation between radiologist and referring physician, fluoroscopy, interpretation of radiographs and fluoroscopic findings and supervision of x-ray services by a radiologist.

Hospital out-patient technical fees will be paid at 91.43% of the technical fee listed in this Schedule of Benefits.

Private offices and hospital outpatient departments will bill Column T plus P.

Radiologists should use Column P as a guideline for negotiating remuneration with hospitals.

Benefits for clinical procedures related to x-ray examinations are listed in the following section, or under Diagnostic and Therapeutic or Surgical Procedures. "Clinical Procedures", in this context, are those by which contrast media are introduced, except oral or rectal administration for study of the alimentary tract, and intravenous injections, which are an integral part of the study, performed by the physician collecting the benefit for the procedure.

If less than minimum number of views are performed, reduce listed fees by 25%.

If the examinations which are requested by the referring physician yield abnormal findings or if they would yield information which in the opinion of the radiologist would be insufficient, governed by the needs of the patient and the requirements of the referring physician, the radiologist may add further views and charge for them (if listed).

Fee Schedule Interpretations

1. When a radiologist is asked to x-ray one extremity only, no additional charge should be made for comparison x-rays initiated by the radiologist.

2. Nephrotomography is covered by the listings for intravenous pyelogram and planigram.

3. A stereo pair is to be counted as two views.

4. No extra claim should be charged for rapid sequence I.V.P.

5. No additional claim is warranted for the use of the image intensifier in diagnostic radiology.

6. Fluoroscopy claims should not be submitted for any examination performed by the radiologist where fluoroscopy is generally regarded as an integral part of the examination, e.g. examinations of the G.I. tract, urinary tract, special procedures.

7. "Colon-air contrast" may be claimed when performed according to generally accepted criteria. The colon should be scrupulously prepared. Five to eight full size views of the abdomen should be obtained after fluoroscopically controlled introduction of air and barium.

8. "Oesophagus, stomach and duodenum, double contrast" presupposes the introduction of gas, the use of antifoam agent and a suitable barium mixture.

9. Abdomen and chest studies should not be routinely done and claimed in gastrointestinal examinations.

10. Three or more views of the chest should not be done routinely and claimed when a chest examination is requested.

11. Chest studies should not be routinely done and claimed in mammography cases.

12. Nasal bones or accessory nasal sinuses should not be routinely claimed in skull examination requests.

13. Abdomen and/or pelvis should not be routinely claimed in lumbar spine examination requests.

14. A survey film of the abdomen is a single view. The ordering of additional films should be left to the discretion of the radiologist who should have the power to determine what examination is adequate for a specific patient. Obviously, if progress of a long tube is being followed, a survey film is sufficient. If, however, an intestinal obstruction is being followed a single film is usually inadequate.

15. Conventional films of the spine should not be routinely done and claimed for before myelography. The necessity of having plain film studies of the spine prior to interpreting the myelographic studies is obvious. It is not essential, however, that these be done at the institution where the myelogram was done. If they had been done at an outside office, then it is a matter for the radiologist and the referring physician to have the films available. If they cannot be made available to the radiologist, it is an acceptable practice for him to do the required examination of these areas and to claim for them so that they may be available for interpretation along with the myelographic study.

16. Pharynx and oesophagus (cine or videotape) – X106 should not be claimed routinely with X108 and X109 but only when specifically indicated.

17. Lumbar or lumbosacral spine (X028) does not include the entire sacrum. An examination of the sacrum may be carried out and claimed for only when specifically indicated.

18. X006 and X007 are not both to be routinely claimed on the same patient but only when specifically indicated.

19. A maximum of two computed tomography examinations per patient per day may be claimed.

20. All benefits listed apply to unilateral examinations unless otherwise specified.

21. Claims for X-ray services, when referred by an Osteopath, Chiropractor or Chiropractor to a private X-ray facility are not benefits of OHIP.

22. Claims for X-ray services, when referred by an Osteopath or Chiropractor to a hospital outpatient department are benefits.

CLINICAL PROCEDURES, ASSOCIATED WITH
DIAGNOSTIC RADIOLOGICAL EXAMINATIONS

- Note 1. These procedural fees are intended to cover compensation for the professional service of placing an instrument and introducing contrast media if done (except oral or rectal administration for study of the alimentary tract). Injection of materials to enhance the effect of contrast media is included in the procedure benefits.
2. Radiological charges are additional: see similar entries under section on RADIOLOGY.
3. Where similar procedures are done for diagnostic physiological studies of non-radiological nature, e.g. cardiac catheterization or intra-arterial infusion, they are listed separately under Surgery or Diagnostic and Therapeutic Procedures. See Index.

DIAGNOSTIC ULTRASOUND

T and P Columns should be interpreted in the spirit of the first two paragraphs on page 32, but without limiting the performance of these tests to physicians of any one specialty. Furthermore, the physician must be physically available to approve, modify or intervene in the examination as required or the examination must be completely recorded by video/computer methods and reviewed in its entirety by the physician. No fee (either professional or technical) may be charged if the physician's only involvement is the interpretation of hard copy (films).

Notes: A-Mode—implies a one-dimensional ultrasonic measurement procedure.

M-Mode—implies a one-dimensional ultrasonic measurement procedure with movement of the trace to record amplitude and velocity of moving echo-producing structures.

Scan B-Mode—implies a two-dimensional ultrasonic scanning procedure with a two-dimensional display.
All ultrasound examinations include a permanent record and interpretative report.

PULMONARY FUNCTION STUDIES

Column T – The benefit for testing including supplying of equipment, premises and technical services.

Column P – The benefit for professional services including responsibility for quality control and technician training, interpretation of the results of the tests, and consultation between the physician responsible for the tests and the referring physician concerning the results of the tests.

- Notes:
- 1. The total benefit is obtained by adding columns T and P together.
 - 2. The benefits for J301, J324, J304 and J327 **must be performed with a permanent record and represent the best of three recorded test results with or without bronchodilator.**
 - 3. Vital capacity, J301, and flow volume loop, J304, cannot be claimed at the same time.
 - 4. Each of the following tests designated by an individual code number is considered to be specific and requires individual ordering.
 - 5. Exercise assessment (J315, E450, E451, J316, J317) requires a physician to be in attendance at all times.
 - 6. J309 and J310 cannot be claimed at the same time.

DIAGNOSTIC AND THERAPEUTIC PROCEDURES

Code With a few exceptions specifically indicated below, the listed procedural benefits are for the procedure(s) alone. Consultations or visit benefits when such services are rendered, may be claimed in addition to the procedural benefits.

G700 When a procedure(s) is the sole reason for a visit, add \$ 3.90 basic fee per visit for those procedures marked (+) regardless of the number of procedures carried out during that visit. However, if the patient visit is to a physician's office or a diagnostic facility controlled directly or indirectly by a physician who has examined (or is about to examine the patient) and referred the patient to such a diagnostic facility, no basic fee should be claimed under these circumstances.

Note: G700 is not payable to a hospital department.

Fee Schedule Interpretations

1. Urinalysis and other laboratory tests listed on page 48, apply when these services are performed by a physician in his office with or without an associated consultation or visit. The same tests listed in the Laboratory Medicine Section of the Schedule apply to licensed laboratories.

2. Some fees for Diagnostic and Therapeutic Procedures have the technical and professional components listed separately. The technical component includes the salaries of support staff, equipment depreciation or lease costs, supplies and costs associated with the preparation of a written report. The professional component includes the clinical supervision of the diagnostic facility, interpretation of the test results and a written report. When only one fee is listed for a service, it represents the professional component only.

3. The Preamble, applicable to Surgical Procedures (pages 55-57) also applies, where appropriate, to Diagnostic and Therapeutic Procedures.

ALLERGY

Note: If a patient presents for an allergy injection and has an acute infectious condition, albeit of the respiratory system, or some other unrelated condition which would have otherwise required a separate office visit, the physician is entitled to charge the appropriate assessment fee as well as the injection fee. If a patient requires a brief assessment of his allergic condition as well as the allergy injection, the physician should bill the injection and basic fees.

	The appropriate consultation, procedure and visit benefit shall apply after stopping artificial respiration or special care.		
	Other physicians apart from those providing Respiratory Care may charge the appropriate consultation, visit and procedure fees.

	These are team fees which apply to neonatologists/pædiatricians/anæsthetists providing complete care. If ventilator care only is provided by anæsthetist(s), the above listings do not apply. Claims should then be made under Respiratory Care (G405, etc.) with Neonatology Pædiatric components billed on a fee for service basis.		
	If infant has been transferred from one level to another in either direction, up or down, second day benefits apply.

OBSTETRICS

1. Obstetrical care is divided into its components. A prenatal major assessment when performed may be claimed; it shall comprise a full history, an inquiry into, and an examination of all parts or systems (and may include a detailed examination of one or more parts or systems), an appropriate record, and advice to the patient. All other prenatal visits shall comprise the necessary history and inquiry, examination, appropriate record, pregnancy related counselling and advice to the patient. Normal (uncomplicated) prenatal care includes a prenatal general assessment visit, then monthly visits to 32 weeks, followed by visits every 2nd week to 36 weeks, then weekly visits until delivery. However, complicated pregnancies may require additional visits. Labour – delivery and postpartum care are listed separately.

2. If an uncomplicated obstetrical patient is transferred from one physician to another physician for obstetrical care, the appropriate assessment benefit may be charged by the second physician, followed by prenatal visits. This statement does not apply to physicians substituting for each other or when the second physician sees the patient for the first time in labour. If the obstetrical patient is referred to a consultant for obstetrical care because of the complexity, obscurity or seriousness of the case, the consultant may claim a consultation in addition to the prenatal visits.

3. Illnesses resulting from or associated with pregnancy or false labour requiring added home or hospital visits, shall be claimed on a per visit basis.

4. When a pregnant patient visits her physician for a condition unrelated to her pregnancy and apart from her routine scheduled prenatal visits, the physician may charge the appropriate visit benefit.

5. The listings under the heading Referred Services may be claimed by the consultant physician in addition to the appropriate consultation or visit benefit. They may not be claimed by physicians providing obstetrical care to their own patients.

6. If a consultant is requested by another physician to perform a surgical induction of labour, or emergency removal of a Shirodkar suture (except at delivery) assuming someone else has inserted the suture, the consultant should claim consultation benefit for this (these) service(s).

7. Medical induction or stimulation of labour may be claimed once per pregnancy by any one physician and only when carried out for a recognized obstetrical complication(s) and does not qualify for detention benefits.

8. The listings for "Attendance at labour and attendance at delivery" and for "Attendance at delivery" may not be claimed by any physician when a patient is transferred to a second physician for normal obstetrical care.

9. Ordinary immediate care of the newborn is included in the labour-delivery fee and when the service is rendered by the anaesthetist, it is included in the anaesthetic benefit. Active resuscitation of the newborn provided by any physician may be claimed under codes G521, G522 (Life Threatening Emergency Situation).

10. When a physician provides newborn care and also performs a circumcision on the same newborn or infant, both services may be claimed.

11. When an obstetrician routinely transfers all newborns to another physician, the latter should not claim consultation benefit for these "transferrals". If the baby is well, the physician should charge the newborn care in hospital benefit plus for attendance at maternal delivery if this service is given. If the baby is sick, the physician may claim a general assessment and for attendance at maternal delivery (if this service is given) plus daily visits for as long as his services are required. If an obstetrician normally cares for newborns himself or transfers the care of newborns to a family physician but refers a newborn to a paediatrician because of the complexity, obscurity or seriousness of the case, the latter may claim for this service according to the following guidelines:

a) If attendance at maternal delivery is provided, code H267 may be claimed and if a general assessment of the baby is carried out, code C263 may be claimed as well. However, a postnatal consultation of the baby, code C265 may not be claimed in addition to code H267.

b) If a paediatrician has not attended delivery, a postnatal consultation may be claimed (if this service is rendered) even though a prenatal consultation may already have been claimed.

12. When a physician provides prenatal visits, attends labour, assists or administers the anaesthetic at Caesarean section and visits the patient post-operatively, he is entitled to claim for prenatal visits, attendance at labour, assistant's or anaesthetist's benefits for Caesarean section, and postoperative supportive care while the patient is in hospital.

13. Physicians may claim for assisted breech delivery (P020) when the service includes spontaneous delivery to the umbilicus, with extraction of the shoulders, arms and aftercoming head.

14. The Preamble applicable to Surgical Procedures (pages 55-57) also applies to obstetrics where appropriate.

15. The premiums applicable to Obstetrics are as follows: When deliveries and other obstetrical procedures done in continuity with the delivery occur after 5:00 p.m. and before midnight or on Saturdays, Sundays and Holidays, increase the procedural fee(s) by 20% (E409). When time of delivery occurs after midnight and before 7:00 a.m. any night during the week, increase the procedural fee(s) by 50% (E410). These premiums are not chargeable in addition to the obstetrical procedural fee(s) if labour is induced by medical and/or surgical means by the same physician **unless the reason for the induction is fetal distress, diabetes, severe pre-eclampsia-hypertension or abruption**. However a forewater A.R.M. or oxytocin augmentation of labour carried out on a patient in desultory labour does not constitute induction.

SURGICAL PROCEDURES

Preamble—FOR DEFINITION OF THE ROLE OF THE REFERRING PHYSICIAN, SEE REFERRING PHYSICIAN SERVICES ON PAGE ix.

FOR DEFINITION OF THE ROLES OF THE ANAESTHETIST, SEE ANAESTHETIST SERVICES ON PAGES x and xi.

- (1) The surgical benefit (except for those procedures marked I.O.P., Complete Care and Fractures and Dislocations requiring no reduction) includes hospital visits rendered by the surgeon two days prior to surgery, the operative procedure, the post-operative care usually associated with the procedure(s) rendered by the surgeon while the patient is in hospital, and one office visit for follow-up examination, if necessary. If the surgeon is required to perform a procedure(s) not usually associated with the original surgical procedure, he may claim for these on a fee for service basis. If special visits to hospital are required at any time post-operatively, the surgeon may claim the special visit premiums even if the basic hospital visit fees are not chargeable. The surgical benefit as noted above does not include the major pre-operative visit i.e. the consultation or assessment fee chargeable when the decision to operate is made and the operation is scheduled, regardless of the time interval between the major pre-operative visit and surgery. The hospital or day-care admission assessment (consultation, repeat consultation, general or specific assessment or re-assessment) is not a benefit to the surgeon unless it happens to be the major pre-operative visit as defined above. Hospital visits (minor assessments) may be claimed for visits rendered more than two days prior to surgery. Other visits (excluding admission assessments) prior to admission may be claimed for in addition to the surgical fee. For patients remaining in hospital because of complications or hospital visit fees may be claimed in addition to the surgical or procedural fee after eight weeks of hospitalization in the case of fractures and dislocations and after two weeks for other procedures. Because the number of hospital visits is limited to three per week after the fifth week of hospitalization and six per month after the thirteenth week of hospitalization, the starting point for calculating the number of hospital visits is based on the date of admission if the operating surgeon has admitted the patient or the date of referral if the patient has been referred to the operating surgeon while in hospital. The surgical benefit includes the generally accepted surgical components of the procedure. The listed benefit of a procedure normally also includes any necessary repair of iatrogenic damage occurring during the course of the surgery.
- (2) When a physician makes a special trip to perform a non-elective surgical procedure during the daytime (Monday to Friday), he should claim the appropriate special visit, a consultation if the case is referred (except for fractures or dislocations requiring no reduction) or the appropriate assessment if the case is not referred plus the procedural benefit(s). When the special visit is to deal with fractures or dislocations requiring no reduction, the minor or partial assessment fee is the appropriate benefit to be added to the special visit and fracture or dislocation fees. If the non-elective procedure is carried out at night (after 5:00 p.m. and before 7:00 a.m.), or Saturdays, Sundays and Holidays, the physician may claim the special visit applicable to the consultation or assessment, and the surgical premium (E409 or E410 — see paragraph 46 of the Preamble).
- (3) When more than one procedure is carried out by a surgeon under the same anaesthesia or within 14 days during the same hospitalization for the same condition, the full benefit applies to the major procedure and 85% of the listed benefit(s) applies to the other procedure(s) performed unless otherwise stated in the Preamble(s) or Schedule. The above statement applies to staged or bilateral procedures but does not apply when a normal appendix or simple ovarian or para-ovarian cyst is removed incidentally during an operation, for which no claim should be made.
- (4) When a subsequent operation becomes necessary for the same condition because of a complication or for a new condition, the full benefit should apply for each procedure.
- (5) When a subsequent non-elective procedure is done for a new condition by the same surgeon, the full benefit will apply to each procedure. When a subsequent elective procedure is done for a different condition within 14 days during the same hospitalization by the same surgeon, the benefit for the lesser procedure shall be reduced by 15%.
- (6) When different operative procedures are done by two different surgeons under the same anaesthesia for different conditions, the benefit will be 100% of the listed benefit for each condition. Under these circumstances, the basic assistants' benefit should not be charged by either operating surgeon; however time units may be claimed.
- (7) As a general rule, when elective bilateral procedures are performed by two surgeons at the same time, one surgeon should charge for the surgical procedures and the other surgeon should claim the assistant's benefit.
- (8) Where two surgeons are working together in surgery in which neither a team fee or other method of billing is set out in the benefit schedule, the surgeon should identify himself as the operating surgeon and claim accordingly; the surgeon who is assisting him should identify himself as such and claim the assistant's benefit. Where the second or assistant surgeon is brought into the case on a consultation basis, he may, when indicated, claim a consultation as well but should be prepared to justify it on an I.C. basis. If the nature or complexity of a procedure requires more than one operating surgeon each

SURGICAL PROCEDURES

providing a separate service in his own specialized field e.g. one surgeon carries out the ablative part and another surgeon the reconstructive part of the procedure, then each surgeon should claim the listed benefit for his services. This statement applies when the additional procedure(s) are not the usual components of the main procedure. If one surgeon in addition to performing a specialized portion of a procedure, acts as an assistant during the remainder of the procedure, he may also claim time units for assisting.

- (9) Unless otherwise stated, the listed benefits are for unilateral procedures only.
- (10) When a procedure is performed, a procedural benefit, if listed, should be claimed. Substitution of consultation and/or visit benefits for procedural benefits (except as in paragraph 11), is not in keeping with the intent of the benefit schedule.
- (11) When a surgical benefit (non I.O.P., Complete Care, Fracture or Dislocation) is less than the consultation benefit and the case is referred, the physician may claim the consultation benefit instead of the surgical benefit. However, to avoid the consultation being counted as such under the OHIP limitation rules on the number of consultations allowed per year, the physician should claim the consultation fee under the surgical procedure nomenclature or code. Since the consultation is replacing a procedural benefit which includes the pre- and post-operative and surgical care, no additional claims beyond the consultation should be made.
- (12) If a physician performs a minor surgical procedure and during the same visit assesses and treats the patient for another completely unrelated and significant problem involving another body system, the physician should claim for the procedure as well as the appropriate assessment.
- (13) Where a procedure is specified as "Independent Operative Procedure (I.O.P.)", the procedural benefit should be claimed in full along with the appropriate consultation or visit when both services are actually rendered. However, when an I.O.P. procedure is done in conjunction with a non-I.O.P. procedure, there should be no claim for the consultation, pre- and post-operative care related to the I.O.P. procedure. The listed I.O.P. benefit should be claimed in these circumstances along with the non-I.O.P. benefits plus the related major pre-operative visit (see paragraph (1) of Surgical Preamble). When multiple or bilateral I.O.P. procedures are performed at the same time by the same physician, the listed procedural benefits should be claimed in full but the pre- and post-operative benefits should be claimed as if only one procedure had been performed. When a patient is examined in a physician's office and this leads to an elective Independent Operative Procedure (I.O.P.) being performed for the same problem or diagnosis by the same physician in the Emergency or Outpatient Department on a non-admission basis, the physician should claim a consultation or visit for the examination in the office and the benefit for the I.O.P. carried out in the Emergency or Outpatient Department. An additional assessment benefit at the time of the elective I.O.P. should only be claimed when an additional assessment is performed.
- (14) When procedures are specifically listed under Surgical Procedures, surgeons should use these listings rather than applying one of the plastic surgery fees listed under Operations on Skin and Subcutaneous Tissue.
- (15) For excision of tumours not specifically listed in this Schedule, physicians should claim on an Independent Consideration (I.C.) basis (R993). For other unusual but generally accepted surgical procedures (excluding non-major variations of listed procedures) which are not specifically listed in the Schedule, physicians should also charge on an I.C. basis (R990).
- (16) **Cosmetic or Aesthetic Surgery:** means a service to enhance appearance without being medically necessary such as (a) surgery for correction of facial wrinkles; (b) surgery for eyelid wrinkles (symmetrical and without a functional problem); (c) rhinoplasty for appearances only; and (d) augmentation mammoplasty for symmetrical deficiency without physiological abnormality. These services are not benefits of OHIP. (See Preamble, Appendix A).
- (17) **Reconstructive Surgery:** is surgery to improve appearance and/or function to any area altered by disease, trauma or congenital deformity. Although surgery solely to restore appearance may be included in this definition under certain limited conditions, emotional, psychological or psychiatric grounds normally are not considered sufficient additional reason for OHIP coverage of such surgery. Appendix D of the Preamble to this Schedule describes the conditions under which surgery for alteration of appearance, only, may be a benefit of the Plan.
Physicians should submit requests to their District OHIP office for authorization of any proposed surgery which may fall outside of OHIP coverage. (see appendix D).
- (18) Procedural benefits (non I.O.P.) include the removal of sutures when both services are rendered by the same physician unless the removal of sutures is done on the second or subsequent office visit for follow up examination. When a physician is entitled to claim for removal of sutures i.e. as outlined in the previous sentence or is a physician other than the operating surgeon or following an I.O.P. procedure, an office visit may be claimed.
- (19) Additional claims for biopsies performed when a surgeon is operating in the abdominal or thoracic cavity should be given independent consideration.

SURGICAL PROCEDURES

- (20) When a listed procedure is performed and no anaesthetic is required, the procedure should be claimed under the “local anaesthetic” listing.
- (21) When a physician administers an anaesthetic and/or other medication prior to or during a procedure(s) and also performs a procedure(s) on the same patient, he should claim for the procedure(s) only. However, when a physician administers a pudendal, femoral, intercostal, sciatic, ilioinguinal, iliohypogastric, ulnar, median or radial block in addition to performing a procedure, he may claim \$11.25 (G224) in addition to the procedure.
- (22) If claims are being submitted in coded form, the surgeon should add the suffix A to the listed procedural code, the surgical assistant should add the suffix B to the listed procedural code and the anaesthetist should add the suffix C to the listed procedural code.

Plastic Surgery Procedures:

The setting of benefits covering the various procedures of plastic surgery is a very difficult problem. Since many procedures are divided into stages which have to be considered in assessing a fee, it is felt that all such plastic surgical procedures should be classed by the responsible specialist as very minor, minor, intermediate, major, or extensive major. Benefits should be claimed according to procedures set forth in the tariff, except in cases which are difficult to define, in which case "I.C." should be the basis of the claim. The minimum benefit for each would be as follows:

R150	Very Minor		70.50	4
R151	Minor	3	108.00	4
R152	Intermediate	4	198.75	4

SURGICAL PROCEDURES

OPERATIONS ON THE MUSCULOSKELETAL SYSTEM

Preamble:

- (1) **Corrective splints must be "corrective" to qualify for a benefit as such. The corrective splint listings are not applicable to simple immobilization such as with a Jones bandage or metal finger splint following soft tissue injury.**
- (2) The removal of a wire or pin or other device when used for traction or external fixation (**except for rigid external fixators**) in the treatment of a fracture or other orthopaedic procedure is to be included in the procedural fee. Removal of devices used for internal fixation **more than 30 days** may be charged for in addition to the procedural benefit.
- (3) The benefit for total hip replacement also includes denervation of the hip joint and adductor tenotomy.
- (4) The benefit for obtaining a bone graft is not to be claimed in cases of pseudarthrosis repair, fusions or for listings in which bone grafting is included.
- (5) For the supervision of limb fitting and 6 months post-operative care following amputation, claim visit fees. Amputation with immediate fitting to include supervision of final limb fitting – add 40% (E586).
- (6) **Arthroscopic surgery shall constitute an anthotomy for the purposes of this schedule and procedures shall command the same benefits.**

Fractures and Dislocations:

- (a) The fracture or dislocation benefits for services requiring no reduction include the major pre-operative visit. For fractures or dislocations requiring open or closed reduction, the major pre-operative visit i.e. consultation or appropriate assessment may be claimed in addition to the listed benefits for open or closed reductions.
- (b) **OPEN REDUCTION shall mean the treatment of a fracture or dislocation by either closed intramedullary fixation or by an operative procedure to expose the fracture. The benefits include fixation by internal or external devices.**
- (c) **CLOSED REDUCTION shall mean the reduction of a fracture or dislocation by non-operative methods (including traction).**
- (d) **NO REDUCTION shall mean the treatment of a fracture or dislocation by any other method and includes the use of the initial external support.**
- (e) The stated benefit covers full or after treatment up to 8 weeks except if additional reductions are necessary or if patient is transferred to another surgeon or if the patient is parapalegic.
- (f) In multiple fractures or dislocations, the benefit for the major fracture or dislocation shall be 100% and the benefit for the other fractures or dislocations 85%. When no procedural benefit is applicable, but when that fracture or dislocation necessitates hospitalization or concurrent care over that demanded by the major injury, a visit benefit may be claimed in addition to other procedural benefits.
- (g) For repeat reductions (closed or open) for the same fracture or dislocation, the full benefit should be claimed for the final reduction and after care—previous reductions by the same surgeon should be claimed at 85%.
- (h) Emergency splinting of fractures in the emergency department should be on the basis of the appropriate visit benefit, plus application of cast if appropriate.
- (i) Transferred cases –
 - (1) When patients are transferred to a chronic or convalescent facility, additional visit benefits on a chronic care basis shall be allowed to other than the operating surgeon (and also to the surgeon after 8 weeks).
 - (2) When patients are transferred to another physician for after care of fractures and dislocations treated by closed or no reduction, the physician rendering the initial care should claim 75% of the listed fee and the surgeon rendering subsequent care visit fees except where otherwise specified. In cases involving open reduction, the percentage should be 80% for the surgeon providing the initial care.
 - (3) **In cases where the original physician attempts to reduce a fracture or disclocation, is unsuccessful and refers the patient to another physician for definitive care, the original physician should claim 50% of the listed fee when a general anæsthetic is not used and 85% when it is.**
- (j) Paraplegia associated with fractures and dislocations may be claimed by charging visit fees after the first 2 weeks of post-operative care in addition to the appropriate procedural fees.
- (k) Pseudarthrosis may be allowed as the appropriate benefit after the fracture is 4 months old.
- (l) For fractures and dislocations not requiring reduction, visit fees apply unless a specific fee is listed. If the listed fee is less than the consultation, the consultation should be claimed under the fracture/dislocation code number.

Schedule 16

LABORATORY MEDICINE

- PREAMBLE:**
1. The patient documentation and specimen handling benefit is applicable to all patients, except for those items listed under the anatomical pathology, histology and cytology sections. The items in this section have been left at a sufficient level to cover any administrative costs. This benefit is not applicable to referred in samples, since the collecting laboratory will already have claimed the patient documentation and specimen collection benefit.
 2. The biochemistry section has been condensed so that one listing refers to a procedure for any of amniotic fluid (A), blood (B), C.S.F. (C), faeces (F), gastrointestinal fluid (G), urine (U). Exceptions are indicated by B, U, etc., following the test name. Other specimens will be considered on an I.C. basis.
 3. A number of tests are listed in different sections of the schedule i.e. when more than one method of performing the test is available e.g. Hepatitis B antigen is listed under both Radioassays and Immunology. Assays of ligand type other than isotopic are listed under Biochemistry.
 4. Blood glucose by the dipstick method may be claimed only when assessed by an appropriate instrument such as a reflectance meter. It should not be claimed when used only as a check on the fasting blood sample of a glucose tolerance test. The blood glucose of the fasting sample in a glucose tolerance test is allowable only once even if assessed by two methods.
Note: The standard glucose tolerance test for diagnosis of diabetes mellitus (L104) consists of 5 blood specimens taken at 0, 30, 60, 90 and 120 minutes following oral administration of 75 g of glucose. In pregnancy (L103), 4 specimens only are to be taken at 0, 60, 120 and 180 minutes. (see: CMAJ 126, 473 (1982)). **When 5 hour glucose tolerance is specifically ordered, the blood glucose measurements are to be claimed individually using code L111.**
 5. Code L418 or L417 may not be claimed by a physician in addition to claim(s) for any treatment or assessment. However, Code G481 (see page 48) may be claimed by a physician if a hemoglobin screen (any method or instrument) is carried out in the course of an office or home visit. Urinalysis (on page 48) may be claimed with or without an associated visit to a physician's office (except for screening and urinalyses which are not medically necessary).
 6. When a screening culture method (e.g. Agar spoon) is used on a urine sample, L641 refers to a culture technique and does not apply to those kits using the nitrite test only. Where a significant growth is obtained and followed up by definitive identification methods, L633 or L634 only should be claimed. The benefits for L633 or L634 include any necessary microscopic examination of the urine.
 7. The physician assumes responsibility for all cytology smears and the listed professional benefits (L804 to L815 inclusive) are weighted averages of the professional component. These benefits, therefore, are applicable in each case whether or not all slides are examined by the physician.
 8. Only those tests which are requested are to be claimed for with the following exceptions. It is intended that if the test results yield abnormal findings or information which would be incomplete, insufficient or meaningless to the referring physician, the medical director of a laboratory may add further appropriate tests and claim for them with the knowledge he may have to substantiate their justification.
 9. A test must be completed in accordance with the pertinent schedule listing in order to claim for it. The verbatim listing is intended as the definitive benefit for that test alone, unless otherwise specified e.g. isoenzymes do not include total enzyme estimation; creatine does include creatinine (as specified). Notwithstanding the foregoing and recognizing that it is impossible to list all variations in techniques of all listed tests, when there is a modification of the usual technique, the listing most closely approximating it should be used.
 10. This schedule, with the exception of L036, lists actual procedures performed. No claim shall be made for calculated values made and reported, or for control tests or repeat tests on same patient sample.
 11. The benefit for seminal fluid examination (complete) is to include sperm count, volume estimation, motility and morphology and viscosity. The benefit of \$3.00 for seminal fluid examination carried out post-vasectomy is not to be claimed by the operating surgeon unless the patient requires more than one office visit post-operatively.
 12. Creatinine is a justifiable addition in the case of tests on 24-hour urine samples, where it is necessary to assess the sample as a complete 24-hour collection. However, if several tests (e.g. steroids) are done on a single such sample, only one creatinine would be claimed for that sample. In those estimations where the test result is expressed in terms of creatinine excretion the performance of a creatinine is mandatory and should be claimed.
 13. It is recognized that in requests for a serologic titre, if a screening test is used and would suffice, the lesser benefit for the screening test should be claimed. If positive and followed by

LABORATORY MEDICINE

serial titration, both the screening and titre fees should be claimed. If the titration is a micro technique using plates, it is the equivalent of a tube titre, the wells being miniature tubes.

14. When a test for trichomonas identification (any method) is carried out in association with L625 or L627, wet preparation (L653) may be claimed in addition. L653 may be claimed when a Wet Preparation is used for direct examination of a fresh specimen for vegetative amoebae or similar parasites. However, the wet preparation used in the faeces concentration technique for parasites and ova is included in L650.

The conditions set down in paragraph 8 of this preamble must be adhered to.

15. It is recognized that in all laboratory tests there is a professional component.
16. The maximum number of units which can be claimed for any combination of L418 (Hemoglobin), L417 (Hematocrit), L399 (WBC Count) and L397 (RBC Count) is 11 units per patient per day, whether automated, semi-automated or manual methods are used. L700 is not included in this total and should be claimed separately, if appropriate. Laboratories using multichannel equipment should use individual codes as described above.
17. The maximum number of units which can be claimed for any combination of the tests represented by the following codes will be 40 LMS units per patient visit per day:

L005	L061	L194	L223	L252
L030	L067	L204	L225	
L045	L111	L208	L226	
L053	L191	L222	L251	

The maximum of 40 units applies on a per patient basis, regardless of the number of specimens submitted and regardless of the number of laboratories involved in performing the individual tests. Code L700 is not included in this maximum and should be claimed separately if appropriate.

18. The maximum number of units which may be claimed for any combination of chemical analyses performed on a single sample by means of an automated chemical analyzer with simultaneously functioning channels is 18 LMS units (L225).
19. The following preamble applies to the blood bank section:
 - (a.) L471 Antibody Identification – incomplete antibodies. A panel of any number of cells regardless of suspending media or technique used. Preparation of eluate and/or antibody absorption is included.
 - (b.) L472 Antibody Identification – complete antibodies. A panel of any number of cells for the identification of complete antibodies by direct agglutination.
 - (c.) L473 Parallel Titration – New code to be used when two sequential patient serum specimens are tested to detect a change in antibody titre. Includes a repeat antibody identification on the current sample.
 - (d.) L490 Blood Group – ABO and Rh α (D). The subgroups of A and RhD^u are included where indicated. A direct AHGT is also included in L490, therefore, L495 may not be charged on the same patient when this code is claimed.
 - (e.) L492 Crossmatch. When an initial crossmatch is requested the appropriate claim is for L490 x 1, L482 x 1 plus L492 for each unit ordered. L490 and L482 may not be claimed more than once on the same day of service. L490 and L493 may not be claimed when these procedures are carried out as a confirmatory test on the units of blood to be transfused.
 - (f.) L493. This code includes L490 (see preamble d.) and Rh genotype to include the antigens C, D, E, c, e, and D^u when indicated. Any other antigen is to be claimed under L494.
 - (g.) L494 Blood Group per antigen. Antigens stated in L493 and L490 are excluded from this code.
 - (h.) L495 Direct AHGT – can be used when ordered as a single procedure, or in addition to L482 when the latter is requested as a single procedure. L495 may not be claimed when L490 or L493 is claimed with L482 on the same patient on the same visit.
20. Antibiotic sensitivities should not be done routinely, but only when, by reason of its identification and/or its concentration, the isolated organism has a high probability of being pathogenic. L621 applies to all routine antibiotic sensitivity testing regardless of the method used and including MIC determination by manual kit or automated methodologies.
21. The use of Nickersons Medium as a screening test for yeast is not a benefit.
22. The carcinoembryonic antigen test (CEA) L690 is not to be used as a general cancer screen. It is to be used only for following established malignancies.
23. This preamble is intended to apply to everyone using codes L700, L001 to L731, L800 to L837 and L900 to L919.
24. Fees for laboratory medicine testing are not refundable (in whole or in part) to the referring physician or referring laboratory by the laboratory performing the tests.

LABORATORY MEDICINE

25. The benefits for patient documentation and specimen collection and each test are calculated by multiplying the individual L.M.S. Unit values by 46.3¢.
26. Laboratory tests on specimens sent outside Ontario are not a benefit of the Plan.
27. **Secondary** Laboratories receiving specimens for additional (secondary) tests from another Laboratory that normally would be claimed as L303, L319 or L500 should be claimed as L903, L919 or L900 respectively.

1. Within one hour after delivery, or as soon thereafter as is practicable, there shall be instilled into each conjunctival sac of the new-born child such quantity of 1 per cent solution of silver nitrate or other effective ophthalmic agent as is necessary to destroy any infectious agent that might cause ophthalmia neonatorum without causing injury to the child.
2. Every physician, public health nurse or other health care professional person who attended at the birth of the child and who is aware that an eye of the new-born child has become reddened, inflamed or swollen, within two weeks after birth of the child shall report in writing to the medical officer of health,

(2) The owner or the person having the care and custody of an animal,

- (a) that has bitten or is suspected of having bitten a person; or
- (b) that is suspected by the medical officer of health of having rabies,

shall provide the medical officer of health with such information and assistance with respect to the animal as the medical officer of health requires. O. Reg. 292/84, s. 2.

3.—(1) Where a medical officer of health receives information under section 2 and he finds any person has been exposed to a rabid or suspected rabid animal so as to require anti-rabies treatment, the medical officer of health shall provide information including details of exposure and treatment to the Manager of the Disease Control and Epidemiology Service of the Ministry.

(2) Where a medical officer of health is of the opinion that a dog or cat may be rabid, he shall cause the dog or cat to be confined and isolated for at least ten days from all animals and persons, except the person caring for the dog or cat,

- (a) at the place of residence of the person caring for the dog or cat, if the dog or cat is free from symptoms of any disease; or
- (b) in a pound or veterinary hospital at the expense of the municipality in which the person caring for the dog or cat resides if the dog or cat exhibits symptoms of any disease or if, in the opinion of the medical officer of health, the person is unlikely to confine and isolate the dog or cat.

(3) Notwithstanding subsection (2), the medical officer of health,

- (a) may require the detention of a dog or cat for the purpose of a veterinary examination for evidence of rabies and based on the results of the examination may cause the dog or cat to be confined and isolated for such period as is necessary to determine that the dog or cat is free from symptoms of rabies; or
- (b) may require the destruction of any animal at any time for the purpose of having a laboratory examination to determine if the animal is in the infective stage of rabies.

(4) In the case of a dog or cat, clause (3) (b) only applies where the dog or cat is unclaimed or where permission is given by the owner for the destruction of the dog or cat.

(5) The costs of a veterinary examination or destruction referred to in subsection (4) shall be borne by the municipality in which the animal is detained or the destruction is performed.

(6) A medical officer of health shall notify the nearest District Veterinarian of the Animal Health Division, Food Production and Inspection Branch, Agriculture Canada, as soon as possible, where he has reason to believe that an animal,

- (a) is rabid; or
- (b) has been in contact with another animal known or suspected of having rabies,

and shall furnish the District Veterinarian with the particulars of the incident.

(7) Where, after a laboratory examination, an animal is found to have been rabid or when there is clinical evidence of rabies, the medical officer of health shall so inform,

- (a) the owner or person who had been caring for the animal; and
- (b) every person known to have been in contact with the animal during the infective stage of the disease and the person's attending physician.

(8) Where an animal has bitten a person or is suspected of being rabid and has had contact with a person and the animal dies or is killed, the owner of the animal or the person having custody of the animal shall notify the District Veterinarian of the Animal Health Division, Food Production and Inspection Branch, Agriculture Canada to arrange for the collection of the head or carcass of the animal. O. Reg. 292/84, s. 3.

- (a) isolate or isolate and treat the bird or birds or poultry flock; and
- (b) have a laboratory examination performed on fecal or tissue specimens of the bird or birds or poultry flock,

until he is of the opinion that the bird or birds or poultry flock is free of the infective agent.

(4) Where,

- (a) isolation and treatment are not, or are unlikely to be, effective in preventing the spread of infection;
- (b) requested by the owner; or
- (c) the person having care and custody of the bird or birds or poultry flock has failed to isolate or treat the bird or birds or poultry flock,

the medical officer of health shall require the owner, at the owner's expense, to destroy the bird or birds or poultry flock and disinfect the premises. O. Reg. 292/84, s. 4.

Environmental Assessment Act

NOTICE OF ACCEPTANCE OF AN ENVIRONMENTAL ASSESSMENT

NOTICE OF APPROVAL TO PROCEED WITH AN UNDERTAKING

RE: An Environmental Assessment for the two 500 kilovolt Transmission Lines from Hanmer Transformer Station to Mississagi Transformer Station

Proponent: Ontario Hydro

EA File No. 1-79-0007-000

TAKE NOTICE that the date for receipt by me of submissions or requirements for a hearing on the above environmental assessment and/or its review by the Ontario Government, pursuant to the *Notice of Completion of Environmental Assessment Review*, dated November 9, 1983, has expired as of December 16, 1983. I received no requirements for a hearing by that date. I do not consider it advisable to require the Environmental Assessment Board to hold a hearing at this time.

ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

I have considered the purpose of the Act, the above environmental assessment, the review and the submission received, and am of the opinion that the environmental assessment is satisfactory to enable a decision to be made as to whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions.

Accordingly, I accept the environmental assessment.

HEARING

Under section 13 of the Act, before I, or the Environmental Assessment Board, can consider whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions, the proponent or anyone having previously made a submission under subsection 7 (2) of the Act on the *Notice of Completion of Environmental Assessment Review* for this undertaking, may require a hearing by the Environmental Assessment Board with respect to whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions. The proponent and the Regional Municipality of Sudbury have waived their rights to a hearing on the approval of the undertaking and no submissions have been made by others under subsection 7 (2).

APPROVAL TO PROCEED WITH THE UNDERTAKING

I have considered the purpose of the Act and the environmental assessment of the undertaking as accepted by me.

Accordingly, I hereby give approval to proceed with the undertaking subject to the conditions set out below.

REASONS

The reasons for giving approval are:

- (1) I received no submissions requiring a hearing by the Environmental Assessment Board after giving the *Notice of Completion of Environmental Assessment Review* dated November 9, 1983 and the proponent and the Regional Municipality of Sudbury have waived their rights to a hearing on the approval of the undertaking. I am not aware of any outstanding issues with respect to this undertaking which suggest that a hearing should be required.
- (2) The environmental assessment together with the Government review and the conditions below sufficiently fulfill the purpose of the Act, which is the betterment of the people of the whole or any part of Ontario by providing for the protection, conservation and wise management in Ontario of the Environment.

CONDITIONS

1. Except as provided by the subsequent conditions, Ontario Hydro shall comply with all of the provisions of the environmental assessment which are herein incorporated by reference for two 500 kilovolt transmission lines between the Hanmer Transformer Station and the Mississagi Transformer Station.
2. Prior to construction, Ontario Hydro shall obtain permits from the Ministry of Transportation and Communications to cross over, and construct entrances along, provincial highways and any other lands of the Ministry of Transportation and Communications.
3. Prior to construction, Ontario Hydro will consult with the Ministry of Natural Resources District Offices at Blind River, Espanola and Sudbury on the preparation of the "Preconstruction Access Route Plan"; and Ontario Hydro will obtain approvals and/or permits from these Ministry offices to carry out any field operations.
4. Ontario Hydro will list, with the assistance of the Ministry of Citizenship and Culture, areas for surveying to identify sites of heritage resources on the route of the undertaking. This survey shall be carried out as soon as the potential center lines are located on the ground. Prior to clearing or construction Ontario Hydro shall prepare a report which assesses the significance of the sites, potential impacts and outlines suitable mitigation measures and submit the report to the Ministry of Citizenship and Culture and to the Environmental Assessment Branch of the Ministry of the Environment.
5. Ontario Hydro will submit to the Northeastern Regional office of the Ministry of Envi-

ronment, a copy of the "Preconstruction Access Route Plan" and the "Proposed Construction Schedule" as referred to in the environmental assessment, for comments. A copy of the Plan and Schedule incorporating any changes made as result of the comments shall be submitted to the Northeastern Regional office and the Environmental Assessment Branch of the Ministry of the Environment prior to commencement of construction.

6. Prior to construction, Ontario Hydro will consult with the Regional Municipality of Sudbury regarding the design and location of the transmission lines with respect to the Vermilion River Valley, major road crossings within the Regional Municipality, including Regional Road #4, and any significant physical features of concern to the Regional Municipality and submit to the Regional Municipality of Sudbury for its review the "Preconstruction Access Route Plan". Prior to construction and before implementing any changes in vegetation control programs, Ontario Hydro shall consult with the Regional Municipality on vegetation control measures to be undertaken on the proposed route within the Regional Municipality.
7. After construction is complete, when Ontario Hydro is carrying out an activity for the purpose of operating, maintaining or altering the transmission lines and Ontario Hydro does not have a subsequent approval related to such activity for the specific lines but has an approval or exemption of a class type which applies to such activity, Ontario Hydro shall comply with any applicable conditions in such exemption or approval.

Dated at Toronto, this 29th day of March, 1984.

Minister of the
Environment,

Form 1

Crop Insurance Act (Ontario)

OIL SEED ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for oil seed under The Ontario Crop Insurance Plan for Oil Seed, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder.

NOW THEREFORE, subject to the *Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover oil seed.

HARVESTING OF SEEDED ACREAGE

1.—(1) All acreage seeded to oil seed in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

(a) the use of the seeded acreage or any part thereof for another purpose; or

(b) the abandonment or destruction of the insured crop or any part thereof.

(2) Where the harvesting of any seeded acreage is not completed and the failure to harvest was not

caused by an insured peril, the contract of insurance shall cease to apply to the unharvested acreage and no indemnity shall be payable therefor.

EVALUATION OF LOSS

2.—(1) Where,

(a) the insured person so elects on his application for insurance and pays a premium deposit of \$1 for each acre intended to be sown to a spring sown crop; and

(b) the seeding or planting,

(i) in the case of systematically tile drained land, of three acres or more, or

(ii) in the case of land that is not systematically tile drained, of six acres or more,

is prevented by one or more of the designated perils,

an indemnity shall be paid,

(c) in the case of systematically tile drained land, for each acre; or

(d) in the case of land that is not systematically tile drained, for each acre in excess of three,

that remains unplanted, the amount of which shall be equal to one-third of the guaranteed production per acre of the spring sown crop highest in priority on the list in the Table of those intended to be grown and insured by the insured person multiplied by the established price applicable to that crop.

(2) Where the insured person seeds or plants a crop in respect of which crop production insurance was applied for, the premium deposit for the acreage so seeded or planted shall be applied against the regular premium.

(3) Where the insured person seeds or plants a crop that is not an insurable crop, the premium deposit in respect of the acreage seeded or planted shall be refunded.

(4) Where the insured person seeds or plants a crop that is an insurable crop, the premium deposit in respect of acreage so seeded or planted shall be retained by the Commission as payment for the coverage provided.

(5) Where the insured person is unable to seed or plant acreage designated on the application as intended to be sown to a spring grown crop, the premium deposit in respect of the acreage shall be retained by the Commission as payment for the coverage provided.

- (6) This paragraph does not apply to, and no indemnity is payable in respect of land,
- (a) that is orchard land, pasture, woodland, seeded to a perennial crop, fall sown or intended for summer fallow;
 - (b) that is untilled and was not cropped in the previous year; or
 - (c) that, in the opinion of the Commission, is not insurable.

- (7) Where the seeding or planting is prevented by excessive rainfall, no indemnity is payable unless the insured person establishes that,
- (a) an abnormal amount of rain occurred;
 - (b) the rainfall resulted in a reduced number of work days; and
 - (c) a significant number of other insured persons were similarly affected,

during the planting season in the area where the insured acreage is situate.

3.—(1) Where loss or damage to three acres or more of the insured crop resulting from an insured peril occurs prior to the 1st day of July in the crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to the reseeded of the damaged acreage.

(2) Where the damaged acreage is reseeded in accordance with subparagraph (1), the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$25 for each reseeded acre.

(3) Where the damaged acreage is reseeded to oil seed, the contract of insurance shall continue to apply to the reseeded acreage.

(4) The total number of acres in respect of which a reseeded benefit is paid in a crop year shall not in any case exceed the total number of insured acres.

4.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and in such case shall determine the number of damaged acres and the potential production thereof.

(2) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph (1), the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the

damaged acreage determined under subparagraph (1) by the established price per bushel or pound, as the case may be.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph (2) shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per bushel or pound, as the case may be.

FINAL ADJUSTMENT OF LOSS FOR
TOTAL INSURED ACREAGE

5. The indemnity payable with respect to the total insured acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraphs 2, 3 and 4 applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 4 shall be reduced by the amount obtained by multiplying the excess by the established price per bushel or pound, as the case may be.

INCORRECT ACREAGE IN FINAL
ACREAGE REPORT

6.—(1) Where the actual seeded acreage of oil seed in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately and there shall be no refund of premium.

(2) Where the actual seeded acreage of oil seed in a crop year exceeds the seeded acreage declared on the final acreage report, the production from the total seeded acreage shall be counted and there shall be no increase in the total guaranteed production or the maximum amount of indemnity payable.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager, but it shall not be binding upon the Commission until countersigned by a duly authorized representative of the Commission.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 300/84.
Exemption—Municipalities of Ontario—
MUNI-1.
Made—May 2nd, 1984.
Approved—May 2nd, 1984.
Filed—May 8th, 1984.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MUNICIPALITIES OF
ONTARIO—MUNI-1

Having received a request that an undertaking, namely the activity of providing and operating sewage or water works to serve the following municipalities:

Township of Colchester South Sewage Works—
Project No. 3-0040

Township of Collingwood Sewage Works—
Project No. 3-0174

Township of Collingwood Water Works—
Project No. 7-0242

Township of Ameliasburgh Water Works—
Project No. 7-0101

Township of East Hawkesbury Sewage Works—
Project No. 3-0366

Township of Innisfil Sewage Works—Project No.
3-0087

Township of Sidney Water Works—Project No.
7-0163

Improvement District of Balmertown Sewage

Township of Rutherford and George Island
Water Works—Project No. 7-0013

Township of Black River-Matheson, Val Gagné,
Guay Subdivision Water Works

Village of Ripley Sewage Works

Township of The North Shore (Spanish) Sewage
Works—Project No. 3-0018

be exempt from the application of the Act pursuant to
section 29; and

Having been advised that if the undertaking is sub-
ject to the application of the Act, the following injury,
damage or interference with the persons and property
indicated will occur:

- A. The residents of the above municipalities will
be forced to continue to depend on an exist-
ing impaired water supply or will be exposed
for a longer period of time to health hazards
because of the presence of untreated sewage
in the municipality.
- B. The residents of the municipalities will be
exposed for a longer period of time to health
hazards because of the contamination of local
water supplies.
- C. A delay in the implementation of these pro-
jects will adversely affect the municipalities
because many of the projects are now under
construction or scheduled to commence con-
struction early in 1984.

Having weighed such injury, damage, or interfer-
ence against the betterment of the people of the whole
or any part of Ontario by the protection, conservation
and wise management in Ontario of the environment
which would result from the undertaking being subject
to the application of the Act;

The undersigned is of the opinion that it is in the
public interest to order and orders that the undertak-

ing is exempt from the application of the Act for the
following reasons:

- A. The proponents have advised that no adverse
environmental effects of the construction and
operation of the sewage and water works are
expected.
- B. In most cases, the proponent advises that
public input on the project has been
requested through the hearing processes
under the *Ontario Water Resources Act* or
the *Ontario Municipal Board Act* or both
Acts.
- C. Most of the municipal projects listed above
were previously exempt under the "Grand-
father Provision" (clause 5 (5) (a)) of Ontario
Regulation 293, but because of unexpected
delays, were unable to fulfill the second con-
dition of the Grandfather Provision, that is,
the tendering or spending of 25% of the cap-
ital cost of the project before December 31,
1983.
- D. The water quality and quantity and com-
munity health benefits that will result from
these works should be available to the
affected communities.

This exemption is subject to the following terms and
conditions:

1. Construction methods and schedules are to
be implemented in consultation with the dis-
trict and regional offices of the Ministry of
the Environment and will follow the
"Environmental Considerations for Planning
the Construction of Provincial Sewage and
Water Projects", (August, 1982) referred to in
Appendix 4 of the addendum to the Ministry
of the Environment, Class Environmental
Assessment document for sewage and water
works.
2. Where an activity which otherwise would be
exempt under this Order is being carried out
as, or is part of, an undertaking for which an
approval to proceed has been received, the
activity shall be carried out in accordance
with any terms or conditions in the approval
to proceed as well as the conditions of this
Order.
3. Where an activity which is the subject of this
Order is being carried out as, or is part of,
another undertaking which is the subject of
an exemption order under the Act, the
activity exempt under this Order shall be
carried out in accordance with any terms or
conditions in the other exemption order as
well as the conditions in this exemption
order.
4. This Order does not apply with respect to
works which have not commenced construc-

tion by December 30, 1985. O. Reg. 300/84.

Treasurer's Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, the owner, prior to sale, may pay the tax arrears and cost. Where this occurs, the land is removed from the tax sale lists.

Environmental Assessment Act

NOTICE OF ACCEPTANCE OF AN ENVIRONMENTAL ASSESSMENT

NOTICE OF APPROVAL TO PROCEED WITH AN UNDERTAKING

RE: A Class Environmental Assessment for Solid Waste Disposal

Proponent: Ministry of Natural Resources

EA File No. 2-77-0002-000

TAKE NOTICE that the date for receipt by me of submissions or requirements for a hearing on the above environmental assessment and/or its review by the Ontario Government, pursuant to the *Notice of Completion of Environmental Assessment Review*, dated September 12, 1983, has expired as of November 28, 1983. I received no submissions from the public or requirements for a hearing by that date. I do not consider it advisable to require

the Environmental Assessment Board to hold a hearing at this time.

ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

I have considered the purpose of the Act, the above environmental assessment and the review, and am of the opinion that the environmental assessment is satisfactory to enable a decision to be made as to whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions.

Accordingly, I accept the environmental assessment.

HEARING

Under section 13 of the Act, before I, or the Environmental Assessment Board, can consider whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions, the proponent or anyone having previously made a submission under subsection 7 (2) of the act on the *Notice of Completion of Environmental Assessment Review* for

this undertaking, may require a hearing by the Environmental Assessment Board with respect to whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions.

The proponent has waived his right to a hearing on the approval of the undertaking and no submissions have been made by others under subsection 7 (2).

APPROVAL TO PROCEED WITH THE UNDERTAKING

I have considered the purpose of the Act and the environmental assessment of the undertaking as accepted by me.

Accordingly, I hereby give approval to proceed with the undertaking subject to the conditions set out below.

REASONS

The reasons for acceptance of the environmental assessment and for giving approval to proceed with the undertaking are:

1. I received no submissions requiring a hearing by the Environmental Assessment Board after giving the *Notice of Completion of Environmental Assessment Review* dated September 12, 1983 and the proponent has waived the right to a hearing on the approval of the undertaking. I am not aware of any outstanding issues which would suggest that a hearing should be required.
2. On the basis of the proponent's environmental assessment, the review process and the conditions of approval, the undertaking of the Ministry of Natural Resources (MNR) for Solid Waste Disposal will be consistent with the purpose of the Act (section 2).

CONDITIONS

- 1(a) In cases where an environmental assessment (EA) approval under the Act for an undertaking for which an individual EA has been submitted and this class EA approval are inter-related, then the individual EA approval prevails;
- (b) Subject to condition 1(a), where carrying out the undertaking requires that some activity, for which an environmental assessment has been done and an approval to proceed received be conducted, that activity shall be carried out in accordance with the other EA approval as well as this class EA approval;
- (c) In these conditions, the phrase "EA approval" means the EA for an undertaking as accepted and any conditions imposed on the approval.
- 2(a) Subject to condition 2(b) the Ministry of Natural Resources (MNR) may make revisions to the class EA only in a manner consistent with section 17 of the Act;

- (b) MNR may make changes to the class EA only if otherwise provided for in any conditions applying to this EA approval.
- (c) A copy of this EA approval shall be distributed by MNR to the appropriate MNR regional offices and its main office. In addition, within 6 months of the effective date of this approval, MNR shall provide to the Environmental Assessment Branch of the Ministry of the Environment (MOE) a copy of the bulletin which directs their field organization in the application of this EA approval. The bulletin as well as this EA approval and conditions will be made available to the public for inspection upon request at the relevant MNR regional offices as well as its main office.
- 3(a) MNR shall carry out an evaluation of this EA approval, including the *Environmental Quality Implementation Handbook* (EQIH), covered by this approval. If revisions are required, MNR shall submit the revised environmental assessment for review under the Act by December 31st of the fourth complete year after approval.
- (b) By December 31st of the first complete year after approval, MNR shall prepare, to the satisfaction of the Environmental Assessment Branch of the Ministry of the Environment (MOE), a methodology for carrying out an analysis of the effectiveness of the procedures set out in this EA approval and an evaluation of that analysis.
4. After an emergency situation has been dealt with, as set out on page 46 of the EA, MNR shall file in the public record a notice as to the nature of the emergency situation, the action taken, whether further action will be required and, if so, how MNR will comply with the EA approval. An emergency situation may exist by reason of:
 - (i) danger to the health or safety of any person;
 - (ii) impairment or immediate risk of impairment of the quality of the natural environment for any use that can be made of it; or,
 - (iii) injury or damage or immediate risk of injury or damage to any property or to any plant or animal life.
- 5(a) Where MNR proposes to acquire property for purposes of a project included under this EA approval it may obtain options or agreements of purchase and sale which are conditional on complying with the Act to acquire property for projects carried out under this approval. This may occur provided such option or agreement is not obtained or entered into until after the District Manager has reviewed the project proposal as required by Step 1 of MNR's Field Environmental Planning Procedure (FEPP).

- (b) Subject to condition 5 (a), land acquisition for projects carried out under this approval shall be made only after termination of the public review, following receipt of final notification as required in Step 3 of the FEPP.
- 6(a) Where planning for a project has commenced but has not been completed (i.e., project approved by the District Manager), at the time when this approval is granted, the proponent shall determine the equivalent stage of the FEPP and from that stage onward carry out planning in accordance with the FEPP subject to the conditions of this approval.
- (b) Where planning for a project as described in condition 6(a) is not completed by the effective date of this approval, the proponent shall, wherever possible, issue first notice to the government ministries and agencies and the public as outlined in the FEPP and according to the terms and requirements of condition 9.
- (c) Where an activity for which planning has been completed before the effective date of this approval is commenced after that date, the proponent shall ensure that a notice is issued to those people in government ministries and agencies who would have received first notice in accordance with the provisions of Step 1 of the FEPP. Such notice shall include a precise description of the project, its location and the time at which it will be carried out. The notice will also describe where additional information in regards to the project may be obtained. A list of those projects meeting the provisions of this condition is to be submitted to the Environmental Assessment Branch of MOE within three months from the date of this approval. An activity shall be deemed to be commenced for the purposes of this clause if site improvement has started or waste has been deposited after the planning process is completed.
- 7(a) The staff of MNR shall engage in a consultative process with each of the government reviewers who express an interest in so doing or other appropriate persons in that reviewer's ministry and with other appropriate agencies in order to improve field construction practices.
- (b) MNR shall develop and implement a monitoring program to improve MNR's range of construction methods, to further identify their potential environmental effects, to expand the range of abatement methods available to minimize adverse environmental effects and to identify the circumstances under which selected methods will be used. MNR shall advise the Environmental Assessment Branch of MOE, from time to time, but at least annually as to the progress of this monitoring.
- (c) The proponent shall ensure that the appropriate provisions of the EQIH as submitted or revised pursuant to these conditions are reflected in the plans and contract specifications for all projects carried out under this EA approval. The proponent further shall be responsible for ensuring, by site inspection and such other means as may be necessary, that the construction of any part of the undertaking covered by this approval is carried out in accordance with the plans and specifications.
- (d) MNR may make revisions to improve the EQIH to be submitted and accepted by the Environmental Assessment Branch of MOE. Such revisions become effective on acceptance confirmed by written notice to MNR. The notice and revisions shall be filed in the public record.
8. In this condition, closure means those activities which are required to be carried out under the *Environmental Protection Act* when a site is no longer accepting waste, and may include such items as monitoring, final cover, and vegetation. The project memorandum for a proposed new landfill site pursuant to the FEPP shall include the consideration of the range of options for closure, post-closure, and post-closure monitoring. MNR shall also consider this range of options, and other reasonable options at the time, when applying for a Certificate of Approval under the *Environmental Protection Act* or at another time that is mutually agreeable to MNR and MOE. MNR shall follow the provisions of the FEPP for closure of a waste disposal site if the District Manager of MNR determines there is potential public concern over the closure or there are significant or unusual environmental impacts associated with the closure.
- 9(a) First notification of the project proposal as required by Step 1 of the FEPP must be issued to affected local, regional or district municipalities and must also be issued to the affected MOE regional office and the Ministry of Agriculture and Food when there are possible agricultural impacts. In determining to which other Ministries and agencies of the Ontario Government notification shall be given, MNR shall in each case consider whether or not the interests of the Ministry of Citizenship and Culture and the Ministry of Industry and Trade may be affected. Also, notice shall be issued to the regional office of the Federal Department of Indian and Northern Development and the Band Council of any Indian reserve that may be affected.
- MNR shall also give public notice to interest groups (provincial, regional and local) which may be known to have concerns regarding certain issues, types of projects or geographical areas, where it considers it appropriate to do so.
- In addition any individual, group or agency may, by notice in writing to the Policy and Planning Secretariat of MNR, request that

- their name be added or deleted from the mailing list to receive first notice with respect to all or certain types of projects in the class. MNR shall accommodate all reasonable requests to this effect.
- (b) The first notice to Ontario Government ministries, agencies and to the public must contain the information, as stated by MNR in Step 1 of the FEPP, as well as the following information:
- (i) A description of the procedures for involvement of the public and government ministries and agencies under the class EA process, including the right of any person (as defined in s. 1 (i) of the EA Act) to request that an individual environmental assessment be carried out on the proposal, i.e., "bump-up" provisions.
 - (ii) A description of any related activities of which the proponent is aware, whether or not such activities are to be implemented at another time or at the same time as the project and an indication as to whether these activities are:
 - under other class EAs
 - under exemption orders
 - not subject to the Act
 - not exempt and requiring an individual EA
 - not exempt but appropriate for exemption because of insignificant environmental effects.
- (c) Where because of the numbers of people involved or for any other reason, it is impractical to give a first notice to everyone personally, MNR may adopt another means of giving notice and document it in the project memorandum sent to MOE pursuant to the requirement on page 60 of the Class EA.
10. As part of Step 2 of the FEPP, all efforts made by MNR in soliciting input from persons external to MNR regarding particular projects shall be documented and included in the environmental assessment file, as established for Step 6 of the FEPP, for each project.
- 11(a) When giving final public notification to provincial ministries, agencies and the public that a preferred alternative has been chosen, MNR shall notify any party which has indicated a continued interest in the project as well as the directly affected public, as determined by the District Manager of the appropriate MNR district office. Final notification will include the location and description of the selected project, and will advise that comments on the project should be received by a specific person by a given date and that additional information on the project is available at specific locations.
- (b) Where MNR is required by this approval or any condition to give notice to a number of individuals or groups of people who have not provided MNR with specific addresses for such purposes, or where the number of such persons makes it impractical to give personal notice to all of them, MNR may give notice by publication or some method other than personal service or individual mailings.
- (c) At the time of issuing final notice pursuant to Step 3 of the FEPP, the environmental assessment file maintained for the project as specified in the FEPP shall contain a description of the project, the location of the project and the proposed mitigation measures.
- (d) If MNR decides, after notice has been given at Step 1 of the FEPP, that the preferred alternative should be changed to an alternative outside the original study area and the new area would have required that notice be given to additional people at Step 1, MNR shall revert to Step 1 and issue a public notice to include those now affected.
- (e) MNR shall normally award a contract or otherwise implement a project only after 30 days have expired from the date final notice was issued. Where, in special circumstances, MNR considers it appropriate to extend or shorten the 30 day period, MNR may do so provided that all parties required to receive notice are given notice and sufficient opportunity to exercise their prerogative to request an individual EA (to "bump-up") and, where possible, shall give notice of the change in review period at the time of giving first notice.
- 12(a) If MNR, after notice has been given at Step 3 of the FEPP, decides to make a significant modification to the project plan, MNR shall issue notice again to those who were previously given final notice and to any additional persons who may be affected by the modification, as determined by MNR, advising people of the modification and requesting their comments in accordance with the procedures and conditions applicable to Step 3.
- (b) When issuing the memorandum to MOE as outlined in Step 5 of the FEPP, the memorandum shall also include the location of the selected project, a description of the significant environmental effects and the proposed mitigation procedures. This memorandum is to be sent to both the relevant regional office or offices and the Environmental Assessment Branch of MOE for filing in the Public Record.
13. The environmental assessment file maintained under Step 6 of the FEPP for each project shall include in addition to those items listed in Step 6, the following:

- (i) minutes of meetings including relevant data that were considered at the meetings, evaluations and decisions; and,
 - (ii) the environmental inventory, including all relevant data, environmental concerns and recommendations; and,
 - (iii) records of any oral or written public submissions in response to the public notices.
14. MNR, in identifying and evaluating options for solid waste management, should consider MOE's "Guidelines for the Establishment, Operation, Management, Maintenance and Closure of Landfilling Sites in Ontario" (MOE Policy No. 14-09). The proponent should also take MOE's publication "Water Management Goals, Policies, Objectives and Implementation Procedures" (November 1978) into consideration when assessing alternative sites for solid waste disposal.
15. Except as otherwise provided by these conditions, the proponent shall comply with all of the provisions of the environmental assessment as accepted including FEPP and EQIH which are incorporated by reference herein.

ORDER UNDER SECTION 34

As set out in section 34 of the *Environmental Assessment Act*, I am required to make a decision as to whether the hearings which might be held on the projects covered by the Class Environmental Assessment with respect to solid waste disposal under the *Environmental Protection Act* may be waived in favour of the hearing which might be held under the *Environmental Assessment Act*.

I am of the opinion that if a public hearing is required on any project, the matters that could be at issue might not be limited to Technical Engineering matters regulated under the *Environmental Protection Act*, and, as such, a public hearing under the *Environmental Assessment Act* would be the better Act under which to conduct the hearing.

Accordingly, I order pursuant to clause 34 (b) of the *Environmental Assessment Act*, that the *Environmental Assessment Act* applies to the undertaking and the public hearings under the *Environmental Protection Act* shall be deemed not to be required or permitted.

Dated at Toronto, this 6th day of April, 1984.

ANDY BRANDT,

(4800) 23 Minister of the Environment.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 319/84.
Exemption—Ontario Hydro—OH-29.
Made—May 11th, 1984.
Approved—May 11th, 1984.
Filed—May 22nd, 1984.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—ONTARIO HYDRO—OH-29

Having received a request from Ontario Hydro that an undertaking, namely:

the activity of modifying by redeveloping or upgrading all existing hydroelectric facilities including: hydroelectric generating stations, stor-

age/control dams, block/side dams, diversion dams and channels and measuring/submerged weirs.

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The public will be interfered with and damaged by the delay in correction of facility defects or delay in optimization of resource use which could either render a facility unsafe (with possible resultant loss or damage to public property or health) or uneconomical.
- B. Ontario Hydro will be interfered with and damaged by the delay and expense required to prepare individual environmental assessments which could render modification activities uneconomical, necessitate extended uneconomic operation of facilities or temporary decommissioning of facilities leading to a requirement for substitute power.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Ontario Hydro has undertaken pre-submission consultation and preparation of a draft Class Environmental Assessment for this undertaking. This exemption provides an interim measure for projects which otherwise would be covered by a Class EA approval pending reassessment of *Environmental Assessment Act* requirements for these types of projects.
- B. The undertaking is not likely to have any significant adverse effects on the environment as the exempt activities are primarily of a minor nature; therefore the interference which would be caused by the immediate application of the Act would be undue.

- C. Parts of the undertaking are subject to review and approval under various acts or agreements, including the *Environmental Protection Act*, Water Power Lease Agreements with MNR and Licences of Occupation with MNR.

This exemption order is subject to the following terms and conditions:

1. Ontario Hydro shall submit a class environmental assessment for this undertaking before January 1, 1985 unless a different method of ensuring compliance with the EA Act for this class of projects is agreed to between Ontario Hydro and the Ministry of the Environment before that date and a record of such agreement is placed in the public record maintained for this order.
2. This exemption shall terminate on the earlier of the date on which approval to proceed with the undertaking is received under the Act or January 1, 1986.
3. Ontario Hydro shall consult with the Director of the Environmental Assessment Branch in cases where it appears that the modification activity would result in significant adverse environmental changes so that Ontario Hydro and the Minister of the Environment may decide whether the project should proceed pursuant to an individual environmental assessment rather than this order.
4. An Environmental Report shall be prepared by Ontario Hydro for each project initiated under this exemption order, and will be submitted to the Director of the EA Branch at least 30 working days prior to the proposed implementation of such activities. A copy of the Environmental Report shall also be submitted to the Director of the appropriate Ministry of the Environment regional office. This report will be filed in the public record in order to inform the public of proposed projects.
5. Staff of Ontario Hydro and the Environmental Assessment Branch shall develop content guidelines for the environmental reports identified in Condition No. 4. These guidelines are to be completed by June 1, 1984.
6. Where any activity which otherwise would be exempt under this order is being carried out as, or is part of, an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
7. Where any activity which is the subject of this order is being carried out as, or is part of, another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
8. Within 30 days of the issue of this order Ontario Hydro shall provide the Director of the Environmental Assessment Branch with a list of projects which Ontario Hydro proposes to carry out under this order and thereafter Ontario Hydro shall update the list at least every six months and shall not carry out any project pursuant to this order unless it is included on the list or added as an update. Exemption—Ontario Hydro—OH-30.

Made—May 11th, 1984.

Approved—May 11th, 1984.

Filed—May 22nd, 1984.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—ONTARIO HYDRO—OH-30

Having received a request from Ontario Hydro that an undertaking,

the activity of planning, design and construction of, and property acquisition for shoreline and river bank improvements and the subsequent use and maintenance of these improvements;

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The public will be interfered with and damaged by the delay in correction of erosion or sedimentation problems which could result in additional loss or damage to public and private properties.
- B. Ontario Hydro will be interfered with and damaged by the delay required to prepare individual environmental assessments which could render the shoreline and river bank

improvements uneconomical and result in a less appropriate course of action and in increased costs to Ontario Hydro through damage to facilities and settlement of damage claims to private property owners.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Ontario Hydro has undertaken presubmission consultation and preparation of a draft Class Environmental Assessment for this undertaking. This exemption provides an interim measure for projects which otherwise would be covered by the Class Environmental Assessment pending reassessment of *Environmental Assessment Act* requirements for these types of projects.
- B. The undertaking is not likely to have any significant adverse effects on the environment and therefore the interference with the activity of shoreline and river bank improvements which would be caused by the application of the Act would be undue.
- C. Parts of the undertaking are subject to review and approval under various acts or agreements, including the *Lakes and Rivers Improvement Act*, the *Ontario Water Resources Act* and any existing Water Power Lease Agreements with the Ministry of Natural Resources.
- D. Parts of the undertaking are proposed to repair erosion problems which would become progressively worse if not quickly repaired and the delay involved in obtaining *Environmental Assessment Act* approval under the Act could result in increased erosion or sedimentation, degradation of the environment and danger to buildings and property.

This exemption order is subject to the following terms and conditions:

1. Ontario Hydro shall submit a class environmental assessment covering this undertaking before January 1, 1985, unless a different method of ensuring compliance with the EA Act for this class of projects is agreed to between Ontario Hydro and the Ministry of the Environment before that date and a record of such agreement is placed in the public record maintained for this order.
2. This exemption shall terminate on the earlier of the date on which approval to proceed

with the undertaking is received under the Act or January 1, 1986.

3. Ontario Hydro shall consult with the Director of the Environmental Assessment Branch in cases where it appears that the activity would result in significant adverse environmental changes so that Ontario Hydro and the Minister of the Environment may decide whether the project should proceed pursuant to an individual environmental assessment rather than this order.
4. An Environmental Report shall be prepared by Ontario Hydro for each project initiated under this exemption order and will be submitted to the Director of the Environmental Assessment Branch at least 30 working days prior to the proposed implementation of such activities. A copy of the Environmental Report shall also be submitted to the Director of the appropriate Ministry of the Environment regional office. This report will be filed in the public record in order to inform the public of proposed projects.
5. Staff of Ontario Hydro and the Environmental Assessment Branch shall develop content guidelines for the environmental reports identified in Condition No. 4. These guidelines are to be completed by June 1, 1984.
6. Where any activity which otherwise would be exempt under this order is being carried out as, or is part of, an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
7. Where any activity which is the subject of this order is being carried out as, or is part of, another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
8. Within 30 days of the issue of this order Ontario Hydro shall provide the Director of the Environmental Assessment Branch with a list of projects which Ontario Hydro proposes to carry out under this order and thereafter Ontario Hydro shall update the list at least every six months and shall not carry out any project pursuant to this order unless it is included on the list or added as an update. Exemption—Toronto Transit

Commission—TTC-01.

Made—May 17th, 1984.

Approved—May 17th, 1984.

Filed—May 22nd, 1984.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACTEXEMPTION—TORONTO TRANSIT
COMMISSION—TTC-01

Having received a request from the Toronto Transit Commission ("TTC") that an undertaking, namely:

The completion of the design and the subsequent completion of the construction of the proposed subway station, located near the intersection of Park Home Avenue and Yonge Street, known as the Park Home Subway Station,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

The Toronto Transit Commission will suffer undue expense and delay in obtaining approval under the *Environmental Assessment Act* for an undertaking which will have minor direct adverse environmental impacts.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Construction of a walk-in station at Park Home Avenue will have a minimal adverse impact on the environment.
- B. The TTC and the City of North York advise that completion of the subway station will provide a needed transportation facility in the area.
- C. Provision for including the Park Home Subway Station in the Yonge Subway Northern Extension was facilitated by the construction

in 1974 of the track grades to accommodate the future station.

- D. The TTC has provided the public with information and has held meetings soliciting public input regarding its plans for the Park Home Subway Station.
- E. The TTC submitted a report to me on April 6, 1984, entitled *Environmental Status Report*, YSNE—Park Home Station, July 1983, to show how the environment is likely to be impacted by this undertaking, set out mitigation measures and provide historical background information.

This exemption is subject to the following terms and conditions:

1. The Toronto Transit Commission shall make public its report entitled *Environmental Status Report*, YSNE—Park Home Subway Station, July 1983.
2. The TTC shall hold a public forum to receive public comments with respect to the design, methods of construction and any mitigation measures to reduce adverse environmental impacts from its construction or operation of the Park Home Subway Station.
3. This exemption order does not apply with respect to any construction after:
 - (a) the 1st day of January, 1986 if construction has not recommenced by that date, or
 - (b) the 1st day of January, 1989 if construction has not been substantially completed by that date.
4. Where any activity which otherwise would be exempt under this order is being carried out as, or is part of, an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order. ORDER MADE UNDER THE

EXEMPTION—CREDIT VALLEY
CONSERVATION AUTHORITY—CDV-02

Having granted a request from the Credit Valley Conservation Authority (CVCA) that an undertaking, namely:

The activity of implementing the Master Plan prepared by Hough-Stansbury and Michalski Ltd., dated May, 1982 for Crookes Park including lakefilling and providing site development for an area on and adjacent to Lake Ontario in the City of Mississauga extending from the limit of Ontario Hydro Lakeview Generating Station in the east to Cooksville Creek in the west and also including an area at the southern extension of Enola Avenue called the Adamson Estate, the areas referred to being designated as Lakefront Promenade Park (formerly Crookes Park),

be exempt from the application of the Act pursuant to section 29; and

Having exempted the undertaking from the application of the Act pursuant to an exemption order filed as O. Reg. 484/83 for the reasons set out therein and subject to the conditions set out therein including:

"5. The CVCA shall not:

- (e) permit the placement of fill in the open lake between November 1 and April 30. (This clause does not apply to the placement of final armour stone or repairs to protect property.)"

And having been advised by CVCA that Condition 5 (e) is no longer appropriate since CVCA and the

Small Craft Harbours Branch of the Dominion Department of Fisheries and Oceans have adopted practices which will permit the extension with rubble of the breakwall, which forms part of the undertaking, during winter weather without causing undue contamination of the lake and that if Condition 5 (e) continues to apply, without modification, the following injury, damage or interference with the persons or property indicated will occur:

- A. CVCA and the Small Craft Harbours Branch will be delayed in completing the breakwall.
- B. Persons who wish to dispose of rubble will be inconvenienced by having to find other proper places to put the rubble during the winter season.
- C. Future users of the harbour being created will not be able to use the harbour as soon as would be possible if the effect of Condition 5 (e) were modified.

Having weighed the injury, damage, or interference which could result from Condition 5 (e) continuing unmodified, against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the unmodified application of the condition;

The undersigned is of the opinion that it is in the public interest to order and orders that the exemption of the undertaking is continued subject to the same terms and conditions and the following additional condition:

9. Notwithstanding Condition 5 (e) rubble may be placed on the breakwall during the period from November 1 to April 30 provided it is done so in accordance with the provisions of a plan approved under Condition 1, 2, 3, 4 (a), 5 (a) or 5 (b) or an amendment thereof approved under Condition 6. - 2. This exemption shall not apply with respect to a project after the earlier of December 31, 1984, or the granting of an approval to proceed with respect to a Class Environmental

Reg. 11/83 which, for purposes of this condition, may continue to be amended by written notice to the Director of the Environmental Assessment Branch and shall be kept in the public record.
5. When an Environmental Assessment is submitted for an individual project identified as part of the undertaking exempted by this order, that project shall be deemed to be a separate undertaking and not be exempted by this order. O. Reg. 338/84.

Filed—June 6th, 1984.

REGULATION MADE UNDER THE CROP INSURANCE ACT (ONTARIO)

CROP INSURANCE PLAN FOR ASPARAGUS

1. The plan in the Schedule is established for the insurance within Ontario of asparagus. O. Reg. 353/84, s. 1.

Schedule

Crop Insurance Act (Ontario)

PLAN

1. This plan may be cited as "The Ontario Crop Insurance Plan for Asparagus".

2. The purpose of this plan is to provide for insurance against a loss in the production of asparagus resulting from one or more of the perils designated in section 4.

INTERPRETATION

3. In this plan,

(a) "asparagus" means asparagus produced in Ontario from plants that are four years of age or older;

(b) "average farm yield" means the average of previous yields of the producing acreage computed on the basis of acreage production records of the insured person or on such other basis as the Commission approves.

DESIGNATION OF PERILS

4.—(1) Subject to subsection (2), the following are designated as perils for the purposes of this plan:

1. Drought.
2. Excessive heat.
3. Excessive rainfall.
4. Flood.
5. Frost.
6. Hail.
7. Insect infestation.
8. Plant disease.
9. Wind.

(2) The contract of insurance does not insure against a loss in the production of asparagus in a crop year resulting from insect infestation or plant disease unless the insured person establishes that he followed a recommended control program during the crop year.

5. The crop year for asparagus is the period from the 1st day of April in any year to the 15th day of July next following.

CONTRACT OF INSURANCE

6. For the purposes of this plan, the entire contract of insurance for asparagus shall be deemed to be comprised of,

- (a) the contract of insurance in the form prescribed by Regulation 231 of Revised Regulations of Ontario, 1980;
- (b) the application for insurance;
- (c) an endorsement for asparagus in Form 1;
- (d) the final acreage report for each crop year; and
- (e) any amendment to a document referred to in clause (a), (b), (c) or (d) agreed upon in writing.

7. An application for insurance shall,

- (a) be in a form provided by the Commission;
- (b) be accompanied by a premium deposit of at least \$150; and
- (c) be filed with the Commission,
 - (i) in respect of the 1984 crop year, not later than the 1st day of May, 1984, and
 - (ii) in respect of subsequent crop years, not later than the 1st day of August of the preceding year.

DURATION OF CONTRACT

8.—(1) A contract of insurance shall be in force for the crop year in respect of which it is made, and shall continue in force for each crop year thereafter until it is cancelled by the insured person or the Commission in the manner prescribed by subsection (2) or is terminated in accordance with the regulations.

(2) A contract of insurance may be cancelled by the insured person or the Commission by notice in writing to the other party on or before the 1st day of May in the crop year during which the cancellation is to be effective.

COVERAGE

9.—(1) Subject to subsections (2), (3) and (4), the coverage provided under a contract of insurance shall be 70 per cent of the average farm yield in pounds of the total producing acres of asparagus grown by the insured person in accordance with the regulations.

(2) The coverage provided under subsection (1) shall be increased following each consecutive no claim year as follows:

1. Following the first no claim year to 75 per cent.
2. Following the second no claim year to 80 per cent.

(3) The coverage provided under subsections (1) and (2) shall be decreased for claim years in steps of 5 per cent from the insured level in reverse progression to that prescribed by subsection (2) to a minimum of 60 per cent.

(4) Where, in any year, a claim is paid in an amount less than one-half of the total premium for that year, the coverage for the following year shall remain unchanged.

(5) The number of pounds determined under subsections (1), (2) and (3) constitutes the total guaranteed production under a contract of insurance.

(6) Where in the opinion of the Commission the insured person cannot provide adequate production records, the average farm yield shall be determined by the Commission on such other basis as it may approve.

10. For the purposes of this plan the established price per pound for asparagus in a crop year is an amount equal to one-half of the minimum price per pound for asparagus negotiated for that crop year by the Ontario Asparagus Growers' Marketing Board.

11. The maximum amount for which the Commission is liable for a loss in production under a contract of insurance shall be the amount obtained by multiplying the total guaranteed production determined under section 9 by the established price per pound determined under section 10.

PREMIUMS

12.—(1) The total premium is \$44 per acre.

(2) Notwithstanding subsection (1), the minimum premium payable by an insured person in each crop year is \$150.

(3) The premium prescribed by subsection (1) includes payments in respect of premiums made by the Government of Canada under the *Crop Insurance Act* (Canada).

13.—(1) Where a contract of insurance is in force, the premium shall be paid in respect of each crop year in which the insured person produces asparagus.

(2) Where a premium is payable in respect of a crop year, the insured person shall pay the premium, less the premium deposit prescribed by subsection (3), to the Commission at the time he files the final acreage report prescribed by section 14.

(3) Where a renewal premium is payable in respect of a crop year, the insured person shall, not later than the 1st day of August in the preceding crop year, pay a premium deposit in accordance with clause 7 (b).

FINAL ACREAGE REPORT

14.—(1) Every insured person shall file with the Commission in each crop year a final acreage report in a form provided by the Commission.

(2) The form mentioned in subsection (1) shall,

(a) record the total number of producing acres; and

(b) be filed by the 1st day of May of the crop year to which it relates.

(3) A final acreage report filed with the Commission shall not be amended without the consent in writing of the Commission.

15.—(1) The Commission may revise the final acreage report in any or all respects and adjust the premium accordingly and, in such case, shall notify the insured person in writing forthwith respecting such revision and adjustment.

(2) The insured person shall be deemed to have agreed with the revision of the final acreage report and adjustment of premium made by the Commission under subsection (1) unless, within ten days from the mailing or delivery of the notification by the Commission, he notifies the Commission in writing that he rejects such revision and adjustment.

(3) Where the Commission receives notice from an insured person under subsection (2), it shall notify the insured person in writing that the contract of insurance does not apply for the crop year in respect of which the final acreage report was filed.

(4) A final acreage report revised under this section shall, failing notice under subsection (2), constitute the final acreage report for the crop year.

16.—(1) Where an insured person in any crop year fails to file a final acreage report in the form and manner prescribed by this Regulation, the Commission may,

(a) prepare the final acreage report; or

(b) declare the insured acreage to be nil.

(2) Where the Commission prepares a final acreage report under subsection (1), the Commission shall mail or deliver a copy of the report to the insured person.

(3) Every insured person shall pay the premium for the crop year in respect of which a final acreage report is prepared by the Commission within ten days from the mailing or delivery to him of a copy of the report. O. Reg. 353/84, Sched.

Form 1

Crop Insurance Act (Ontario)

ASPARAGUS ENDORSEMENT

WHEREAS the insured person has applied for crop insurance under The Ontario Crop Insurance Plan for Asparagus, hereinafter referred to as "the plan" and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to the *Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover asparagus produced in Ontario.

HARVESTING OF PRODUCING ACREAGE

1. All producing asparagus acreage shall be harvested in a crop year unless the Commission, upon application therefor in writing, consents in writing to,

(a) the use of the producing acreage or any part thereof for another purpose; or

(b) the abandonment or destruction of the insured crop or any part thereof.

EVALUATION OF LOSS

2.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph (1), the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the damaged acreage determined under subparagraph (1) by the established price per pound.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph (2) shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total producing acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

NOTICE OF LOSS OR DAMAGE

3.—(1) Where loss or damage to the insured crop occurs and the insured person intends to abandon or destroy the insured crop, or to replant or use the planted acreage for another purpose, the insured person shall notify the Commission in writing of such intention and shall take no further action without the consent in writing of the Commission.

(2) Where loss or damage to the insured crop occurs and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission forthwith by telephone and shall confirm in writing within twenty-four hours of such time.

(3) Where the loss or damage to the insured crop occurs and it appears, or ought reasonably to appear, to the insured person at any time after planting and before the completion of harvesting of the insured crop that the production of the insured crop may thereby be reduced, the insured person shall, as soon as the loss or damage is apparent, notify the Commission in writing forthwith.

(4) Notwithstanding any notice given by the insured person under this paragraph, where on completion of harvesting of the insured crop, the actual production is less than the total guaranteed production, the insured person shall notify the Commission in writing forthwith.

FINAL ADJUSTMENT OF LOSS FOR TOTAL PRODUCING ACREAGE

4.—(1) The indemnity payable with respect to the total acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraphs 3, 4 and 5 applicable to such acreage, but where,

(a) the actual production of any harvested acreage; or

(b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 5 shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

(2) The maximum indemnity payable in respect of any claim shall not exceed the result obtained by subtracting the actual production, or 25 per cent of the average farm yield, whichever is greater, from the total guaranteed production.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

5. Where the actual producing acreage of asparagus in a crop year is less than the producing acreage declared on the final acreage report, the total guaranteed production and the amount of insurance shall be reduced proportionately and there shall be no refund of premium.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this Endorsement to be signed by its General Manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 371/84.

Exemption—Gloucester Hydro—GLOU-C-1.

Made—May 7th, 1984.

Approved—May 7th, 1984.

Filed—June 14th, 1984.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—GLOUCESTER HYDRO— GLOU-C-1

Having received a request from the Hydro-Electric Commission of the City of Gloucester ("Gloucester Hydro") that an undertaking, namely:

the activities of planning, designing, constructing and operating an electrical transformer substation on lands to be acquired by Gloucester Hydro, in Lot 19, Concession 2, Rideau Front in the City of Gloucester to transform electrical current from 115 kV to 27.6/16.0 kV,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The property purchase costs could increase and parts of the property may be unavailable for purchase making the property a less viable alternative to Gloucester Hydro as a potential transformer substation site.
- B. The public will be interfered with and damaged because the level of service available from Gloucester Hydro is diminished and the efficiency of the distribution system is affected if the required facility is not in place by the winter of 1985-86.
- C. Gloucester Hydro will be damaged and interfered with by the undue expense required to prepare an environmental assessment for an undertaking which is urgent, is of a minor nature and will have only minimal effect on the environment.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation

and wise management in Ontario of the environment which could result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proponent has advised that the environmental effects of the construction and operation of the transformer substation are expected to be very limited and not adverse.
- B. The public and property owners have been made aware of the proposed construction of the transformer substation and the proponent advises that there are no public concerns whatsoever.
- C. The investigation of alternative sites by the proponent indicates that the site being considered has the highest potential as a transformer substation site. Undue delay in procuring land could result in the preferred site becoming unavailable for purchase.
- D. The proponent has initiated a consultation process with the Ministry and will maintain this contact throughout the planning and construction stages.

This exemption is subject to the following terms and conditions:

- 1. This exemption shall expire if construction is not commenced by June 30, 1986.
- 2. The property acquired by the proponent shall be sufficient to provide space for landscape screening to limit the visual impact of the equipment and structures located within the transformer substation in accordance with standard installation practices of the proponent, which landscaping shall be commenced not later than the completion of construction and shall be carried out expeditiously thereafter.
- 3. The planning, designing and implementation process for the facility will be made known to the public and property owners in the area.
- 4. Mitigation of any adverse environmental effects during construction will be undertaken in accordance with Ontario Hydro's "Construction and Site Restoration Guidelines for Transmission Facilities" which have been approved by the Ministry of the Environment. O. Reg. 371/84.

Minister of the Environment

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 372/84.
Exemption—The Township of
Michipicoten—MICH-TP-1.
Made—May 7th, 1984.
Approved—May 7th, 1984.
Filed—June 14th, 1984.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—THE TOWNSHIP OF
MICHIPICOTEN—MICH-TP-1

Having received a request from the Township of Michipicoten that its undertaking, namely:

The activity of constructing and operating a municipal water works in Michipicoten River Village in the Township of Michipicoten consisting of two (2) deep wells, a water distribution system, a 460m³ elevated water storage reservoir and related facilities,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

Residents will be exposed to dangers from periodic high coliform counts in private wells.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and hereby orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The undertaking will replace private wells which have poor and unacceptable water quality.
- B. The proponent advises that the undertaking is unlikely to result in significant negative environmental effects.
- C. Without an exemption the 1984 construction period may be lost and the problems allowed to continue.

This exemption is subject to the following terms and conditions:

1. This exemption does not apply to any activities carried out after the 31st day of December, 1985 if construction is not substantially completed by that date.

2. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been done and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.

3. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in that order as well as the terms and conditions in this order. $$\text{maximum bather load} = \frac{D}{2.5} + \frac{S}{1.4}$$

where D = the area in square metres of the part of the pool that is deeper than 1.35 metres; and

S = the area in square metres of the part of the pool that is 1.35 metres in depth or shallower.
